Citizen's Election Program

Sec. 9-702-1. Expenditure limits and attribution of expenditures

Expenditures by the candidate committee of a participating candidate in a primary, made prior to or on the date of such primary, shall be presumed to have been made for the primary for the purpose of applying the expenditure limit. However, such presumption may be overcome if the timing of the receipt of the value of such goods or services requires attribution of such expenditures to the general election and the corresponding general election expenditure limit.

(Adopted effective December 20, 2007)
