I. Introduction

This publication serves as a guide for *political committees* that intend to raise and spend funds in connection with elections or primaries for offices held in Connecticut at the state, district or local level. The Connecticut campaign finance laws applicable to political committees appear in [Chapter 155](#) of the Connecticut General Statutes, Sections [9-600 through 9-625](#). The Commission also publishes guides for *candidate committees*, *party committees*, and referendum committees. Copies of the campaign finance laws, disclosure forms, and committee registration statements are available at both the State Elections Enforcement Commission's offices and on our website, www.ct.gov/seec.

A. Changes in the Law

Since the previous edition of this guidebook, the General Assembly passed a series of amendments to [Chapter 155](#), which became effective upon passage in June 2013. See [Public Act 13-180](#) and [Public Act 13-191](#). These changes were reflected in the Commission's fact sheet, "[Important Law Changes Applicable to Political Committees](#)," and have now been fully incorporated in this edition of the Guide.

Important Note: [Public Act 13-180](#) contains substantial changes to the law including disclosure and attribution rules for independent expenditures, and when formation of a political committee is required. In addition, a recent court decision rendered by the Court of Appeals of the Second Circuit may have an impact on the application of the law to political committees that only make independent expenditures. See *N.Y. Progress & Prot. PAC v. Walsh*, 733 F.3d 483 (2d. Cir. 2013). As a result, the Commission and its staff are in the process of issuing additional guidance, in the form of declaratory rulings, advisory opinions, and other publications. Accordingly, a political committee engaging in independent expenditures should periodically check the Commission's website for additional information. Also, compliance staff is available via telephone to help answer questions.

B. Changes in this Guide

This Guide will highlight the above-referenced changes to the law, which are denoted by reference to the public act ([P.A. 13-180](#) and [P.A. 13-191](#)) and at times are emphasized in "Important Notes." The Guide also offers additional clarification of existing law based on questions received by Commission staff over the past year. Terms defined in the Glossary of this Guide appear italicized when they first appear in the Guide.

We wholeheartedly welcome suggestions for future improvements to this Guide from you, the *political committee chairpersons*, treasurers, and committee workers that are its intended audience. Please remember, the Guide is **not** a substitute for statutes and regulations. Anyone using this Guide should refer to the specific statutory provisions, regulations, declaratory rulings, and advisory opinions of the Commission referenced throughout.

C. Requesting Compliance Advice

Anyone subject to Connecticut's campaign finance laws may contact the State Elections Enforcement Commission to discuss how the campaign finance provisions apply to them in a particular situation. You may request advice by calling the Commission or by writing to us by U.S. mail or e-mail. PLEASE DO NOT request advice for the SAME QUESTION using more than one of these methods.

1. Call the Compliance Unit at (860) 256-2940;

OR

2. Make a request for written advice.

You may submit a request for written advice by e-mailing seec@ct.gov (including "compliance advice" in the subject line) or by sending a letter to:

State Elections Enforcement Commission
Attn: Compliance Unit
Office of Governmental Accountability
20 Trinity Street
Hartford, CT 06106

In your request for advice, please include a complete description of all relevant facts and a specific question. Your request must concern a specific transaction or activity that you plan to undertake or are currently undertaking and intend to continue in the future.

The Commission and/or its staff issue three types of written advice: opinions of counsel, advisory opinions, and declaratory rulings. An **opinion of counsel** is an opinion by Commission staff counsel; it is not binding on the Commission. The person requesting the opinion of counsel may rely upon the opinion with respect to any matter brought before the Commission based upon the same facts and circumstances addressed in the opinion of counsel. If there is an omission or change in any of the facts or assumptions presented, and such omission, fact or assumption is material to the conclusions presented in the opinion of counsel, then the requestor may not rely on those conclusions in support for such activity brought before the Commission.

When the Commission receives similar questions from various individuals or concludes that the regulated community would best be served by more general, written guidance, the Commission may opt to issue an **advisory opinion**. An advisory opinion is an official Commission statement on a question relating to the application of Connecticut campaign finance law. Unlike an opinion of counsel, upon which only the recipient named in the opinion may rely, the regulated community at large may rely on an advisory opinion, which is voted on and adopted by the Commission.

Finally, the Commission may issue a **declaratory ruling**. A declaratory ruling affords the Commission the opportunity to rule on the validity of any regulation or the applicability to specified circumstances of a provision of the General Statutes, a regulation, or a final decision on a matter within the jurisdiction of the Commission. An individual may petition for a declaratory ruling or the Commission may initiate a proceeding on its own

motion. A petition for a declaratory ruling must: (1) state clearly and concisely the substance and nature of the petition; (2) identify the statute, regulation and/or order which the petition concerns; (3) identify the particular aspect to which the petition is directed; and (4) be accompanied by a statement of any supporting data, facts, and/or arguments that support the petitioner's position. Like an advisory opinion, a declaratory ruling has general applicability.

The Compliance Unit will NOT respond to requests for oral or written advice concerning:

1. The conduct of another individual, committee, or entity.

The Compliance Unit may provide you only with advice concerning your own conduct. Complaints about the conduct of another individual, committee, or entity should be registered through the complaint process administered by our Enforcement Unit.

2. Conduct that has already occurred.

The Compliance Unit may provide you only with advice concerning your current or future conduct.

3. Issues that are not covered under the campaign finance statutes.

The Compliance Unit may only provide you with advice concerning [Chapter 155](#) through [157](#) of the General Statutes, portions of [Chapter 152](#) concerning referenda, and General Statutes [9-7a](#) and [9-7b](#), the enabling statutes for the State Elections Enforcement Commission.

II. Responsibilities of the Committee Chairperson

A. Requirement to Form a Political Committee

Important Note: [Public Act 13-180](#) contains substantial changes to the law concerning disclosure and attribution rules for independent expenditures, and when formation of a political committee is required. As a result, the Commission and its staff are in the process of issuing additional guidance, in the form of declaratory rulings, advisory opinions, and other publications. Accordingly, any person, including individuals and pre-existing entities such as for-profit and non-profit corporations, businesses, and groups organized under section 501 (c) or section 527 of the Internal Revenue Code, is advised to periodically check the Commission's website for additional information, and to check for addendums to this Guidebook. Also, compliance staff is available via telephone to help answer questions.

Individuals or other persons considering forming a political committee must keep in mind that political committees serve limited purposes – to promote the success or defeat of candidates running for public office at the state or local level, to promote the success or defeat of *referendum questions*, and/or to promote a political party. If your intended activities do not fall within these parameters (e.g., you seek to do issue advocacy) and the money you wish to spend and/or receive will not be used in furtherance of these purposes, then a political committee is not the proper vehicle.

If you wish to raise or spend money to promote the success or defeat of candidates or referendum questions or to promote a political party, however, then you may form a political committee. Whether you *must* form one depends on various factors, as more fully explained below.

[General Statutes § [9-607\(g\)\(1\)](#) (as amended by [P.A. 13-180](#))]

With the enactment of Public Act 13-180, a “person” may make unlimited independent expenditures from its treasury funds without forming a political committee. The statute defines the term “person” very broadly to mean “an individual, committee, firm, partnership, organization, association, syndicate, company trust, corporation, limited liability company or any other legal entity of any kind but does not mean the state or any political or administrative subdivision of the state.” The next two sections of this Guidebook will generally explain the requirements for individuals and the requirements for other persons (who are not individuals).

1. Individuals

a. An Individual Acting Alone Spending Personal Funds

An individual acting alone and using personal funds may make contributions to other committees, subject to source and dollar limits, without being required to form a political committee.

An individual acting alone and using personal funds may make unlimited independent expenditures. See the section on independent expenditures for more information on the definition of independent expenditures. It is important to understand the difference between an independent expenditure and a non-independent expenditure: there is

no limit to the amount of independent expenditures an individual may make using personal funds, but since non-independent expenditures (coordinated expenditures) are in-kind contributions, they are subject to limits.

An individual acting alone is required to disclose all independent expenditures made or obligated to be made if the aggregate amount exceeds \$1,000.

b. Two or More Individuals Acting Together

Two or more individuals acting together and who receive contributions or make or incur independent expenditures not exceeding \$1,000 are provided with a “safe harbor,” meaning they are **not** required to register a political committee so long as they stay under the \$1,000 threshold. But if such individuals acting together receive funds or make or incur expenditures exceeding \$1,000 in the aggregate, they must register a political committee and comply with the requisite disclosure requirements. Once the group has reached this \$1,000 threshold, it must register as a political committee. Because a group that has reached the \$1,000 threshold must form a political committee and disclose all of its previous financial activity, we strongly urge any group of two or more individuals engaging in election spending to keep records of **all** of its financial activity, including all contributions and expenditures.

The “safe harbor” does **not** exempt two or more individuals acting together (and receiving or spending less than \$1,000 on independent expenditures) from the **attribution requirements**. For example, if two individuals acting together each spend \$100 on an independent expenditure to print a communication promoting a candidate, they are not required to register a political committee or file financial disclosure statements (because they have only received or spent an aggregate of \$200 on the independent expenditure). However, they **are** required to claim their speech by complying with the attribution requirements, which are set forth in [Chapter VI. Spending Committee Funds](#).

In addition, the “safe harbor” does **not** apply to two or more individuals acting together and making a **contribution** or a **non-independent (coordinated) expenditure** with a candidate or committee or agent thereof. For example, if two individuals acting together each spend \$100 on a non-independent expenditure (an expenditure coordinated with a candidate or his committee) to print a communication promoting a candidate, they **are** required to register a political committee and to file financial disclosure statements, because the candidate’s committee can only receive contributions, including in-kind contributions, from registered committees. This communication would also have to bear the appropriate attribution for political committee communications, as discussed in [Chapter VI. Spending Committee Funds](#).

[General Statutes § [9-602\(a\)](#) as amended by [P.A. 13-180](#)]

2. Persons (Most Groups)

As noted above, a “person” may make unlimited independent expenditures from its treasury funds without forming a political committee. Practically speaking, this means, for example, that a for-profit corporation or non-profit corporation or labor union may spend funds directly from its pre-existing general treasury to make independent expenditures. While such persons may now make unlimited independent expenditures from their existing treasuries (including funds raised in the form of non-earmarked

donations) without forming a political committee, certain disclosure requirements may apply.

Any person, except for an individual acting alone (who may make contributions from personal funds, subject to certain dollar and other limits discussed later in this Guidebook) wishing to make contributions to candidates or committees or make non-independent expenditures – those expenditures *coordinated* with a candidate or committee – is still required to form a political committee before engaging in these regulated activities.

For more information on whether an expenditure would be considered independent or coordinated, please see the sections on “Coordinated Expenditures” and “Independent Expenditures” in [Chapter VI. Spending Committee Funds](#).

[General Statutes § [9-601 \(10\)](#); (General Statutes § [9-602 \(a\)](#), as amended by [P.A. 13-180, § 33](#).)]

B. Designation and Registration of a Political Committee

An entity wishing to make contributions or expenditures that are not independent (i.e. that are coordinated) must register a political committee by submitting a form entitled [SEEC Form 3](#), “Political Committee Registration,” with the appropriate filing repository (as discussed below) within ten days of organization. Similarly, a group of two or more individuals acting together may not solicit or receive funds or make any expenditures in excess of \$1,000 or make any contributions unless they register a political committee within ten days of organization.

If the committee organizes within ten days of an election, primary or referendum for which it intends to solicit contributions or make expenditures, the chairperson must **immediately** file the registration with the appropriate filing repository.

If the initial contribution or disbursement made to the committee precedes the filing of the registration statement, then the committee’s treasurer must file a **campaign finance disclosure statement** itemizing this transaction ([SEEC Form 20](#)) along with the registration statement. If the initial contribution or disbursement is made after the filing of the registration statement, the treasurer must file an itemized report ([SEEC Form 20](#)) within **48 hours** of receiving that initial contribution or disbursement.

[General Statutes §§ [9-602\(a\)](#), [9-605\(a\)](#) and [\(b\)](#)]

The **State Elections Enforcement Commission** is the proper filing repository with respect to the following political committees:

- All political committees formed to promote the success or defeat of candidates for one or more of the following offices: Governor, Lieutenant Governor, Secretary of the State, Treasurer, Comptroller, Attorney General, Judge of Probate, State Senator and/or State Representative.
- Political committees formed to promote the success or defeat of one or more proposed constitutional amendments.

The **town clerk** is the proper filing repository with respect to the following political committees:

- Political committees formed **solely** to promote the success or defeat of candidates for town, city, or borough office.
- Political committees formed **solely** to promote the success or defeat of one or more referenda to be voted upon by the electors of a single municipality. If any such local question appears on the ballot of several municipalities, but not statewide, the committee must file with the town clerk of **each** municipality that will be voting upon the question.
- Political committees formed **solely** to promote candidates for municipal office and referenda which will be voted upon within the same municipality.

Important Note: If your committee is formed to promote the success or defeat of municipal candidates **and** statewide office and General Assembly candidates or both local **and** statewide ballot questions, you should register with the State Elections Enforcement Commission only.

[General Statutes § [9-603\(a\) and \(b\)](#)]

Any **additions or revisions** to the information contained in a registration statement must be made by submitting an amended registration statement to the appropriate filing repository not later than **ten days** after the addition or change.

Important Note (2013 Law Change): Under prior law, the chairperson of a political committee was required to report any changes in the committee's registration statement with the applicable filing repository. Unless the amendment involves a change in officer, this duty may now be performed by the treasurer. See [Public Act 13-180](#).

[General Statutes § [9-605\(c\)](#) (as amended by [P.A. 13-180](#))]

Important Note: Political committees that file with the State Elections Enforcement Commission may now register and file financial disclosure statements online, through eCRIS (Electronic Campaign Reporting and Information System). The website for eCRIS is located at <http://seec.ct.gov/eCris/eCrisHome.aspx> and the eCRIS helpdesk (860-256-2930) is available to answer all of your questions.

C. Designation of a Depository Institution

The committee's registration statement ([SEEC Form 3](#)) must contain the name and address of a single *depository institution* located in Connecticut. The committee must deposit all committee funds into a single checking account established within the designated depository and the *treasurer* may only make expenditures from this one account.

[General Statutes §§ [9-602\(a\)](#), [9-605\(b\)](#), [9-607\(e\)](#); [Advisory Opinion 1975-6](#)]

Important Note: In order to create a bank account, many financial institutions require the committee to obtain a Federal Employer Identification Number (FEIN). The committee treasurer should contact the Internal Revenue Service (IRS) regarding an Employer Identification Number and the necessity to make filings regarding the committee's taxable income. Any questions about these IRS filing requirements should be directed to the IRS's Tax Exempt and Government Entities Customer Account Services toll free telephone number, 1-877-829-5500. Additionally, information is available at the IRS website: www.irs.gov. Commission staff cannot provide information about these rules or requirements.

D. Appointment of a Treasurer and Deputy Treasurer

The committee chairperson must appoint one individual, who is a Connecticut elector (registered voter), as treasurer. The committee chairperson may appoint another such individual as *deputy treasurer*. Only the treasurer and deputy treasurer can deposit funds and authorize or make expenditures. It is recommended that each committee have a deputy treasurer who can deposit funds and make or authorize expenditures and other committee payments if the treasurer is unavailable.

These appointments must appear on the committee's most current registration statement ([SEEC Form 3](#)). The committee treasurer and deputy treasurer (if applicable) must co-sign the registration statement filed by the chairperson, signifying their acceptance of the appointment. Once appointed, the treasurer and deputy treasurer (if applicable) serve indefinitely. The treasurer (or deputy treasurer if the treasurer is unavailable) is solely responsible for receiving, depositing, and expending funds, for filing financial disclosure statements with the proper filing repository, and for keeping internal records of all transactions, as more fully discussed in [Chapter III. The Role of the Treasurer](#).

[General Statutes §§ [9-602\(a\) and \(c\)](#), [9-605\(a\)](#), [9-606\(d\)](#), [9-607\(a\) and \(d\)](#)]

E. Resignation and Replacement of a Treasurer

During the life of the political committee, its treasurer may resign, be replaced, or otherwise become incapacitated. A written statement of resignation must be filed with the appropriate filing repository in order to relieve the treasurer from his or her statutory obligations and liability under the campaign finance laws.

Upon a treasurer's resignation or permanent incapacity, the deputy treasurer, if any, automatically succeeds as "acting" treasurer until a new treasurer is appointed. Where no deputy treasurer has been appointed, the failure to designate a successor treasurer within **ten days** of the resignation or incapacity is a violation of General Statutes § [9-602\(c\)](#), for which a fine may be imposed against the committee chairperson. Regardless of whether a deputy treasurer has been appointed, it is strongly recommended that the committee chairperson designate a successor treasurer to fill the vacancy by filing an amended [SEEC Form 3](#) with the appropriate filing repository within the ten days.

A political committee may **not** receive any *contributions*, or make or incur any expenditures during a period in which the committee lacks a treasurer or deputy

treasurer. The committee chairperson is legally liable for any such violation and subject to a maximum civil penalty of \$2,000 per violation.

[General Statutes §§ [9-7b](#), [9-602\(a\) and \(c\)](#), [9-607\(a\) and \(d\)](#)]

F. Who May Not Be a Treasurer or Deputy Treasurer

An individual who is not a Connecticut elector may not serve as treasurer or deputy treasurer.

In addition, an individual may not serve as treasurer or deputy treasurer of more than one political committee (except an individual may be treasurer or deputy treasurer for a legislative leadership or legislative caucus committee and another political committee). Serving as a treasurer or deputy treasurer qualifies as *controlling* a political committee and Connecticut's campaign finance laws mandate that no individual may establish or control more than one political committee, as is more fully detailed in Section H of this chapter.

Practically speaking, communicator lobbyists, their immediate families, and their agents may not serve as treasurers for political committees established or controlled by candidates for Governor, Lieutenant Governor, Secretary of the State, Treasurer, State Comptroller, Attorney General, state senator or state representative or for legislative leadership or legislative caucus committees as they are prohibited from bundling contributions for such committees. For more information on who is considered a communicator lobbyist, please see [Chapter V. Restrictions Based on Who Gives and Solicits Funds](#).

A person who has not paid civil penalties or forfeitures assessed against him under the campaign finance statutes may not serve as treasurer or deputy treasurer of a political committee. In addition, a person may not serve as treasurer or deputy treasurer if the person has been convicted of or pled guilty or *nolo contendere* to any felony involving fraud, forgery, larceny, embezzlement or bribery, or any criminal offense under the state election or campaign finance laws unless at least eight years have elapsed from the date of the conviction or plea or the completion of any sentence, whichever date is later, without a subsequent conviction of or plea to another such felony or offense.

Important Note (2013 Law Change): Under prior law, there were no prohibitions from serving as a treasurer or deputy treasurer based on the person's past history with campaign finance civil penalties or forfeitures, felonies, or criminal offenses of state election or campaign finance laws. The new law provides for certain such restrictions, as outlined above. See [Public Act 13-180](#).

[General Statutes §§ [9-601\(27\)](#), [9-605\(e\)](#), [9-606\(d\)](#) (as amended by [P.A. 13-180](#)), [9-610\(i\)](#)]

G. Registration Statement Requirements

Important Note: For more information on how to complete [SEEC Form 3](#), please see the [SEEC Form 3 instructions](#) to the form, available on the Commission's website.

A registration statement must contain the following:

1. The name and address of the committee.

2. The name, address, telephone number, and e-mail address (if applicable) of the committee's chairperson, treasurer, and deputy treasurer (if applicable).
3. The name and address of the depository institution in Connecticut in which a single checking account is established for the committee's funds.
4. The name, address, and title of any other officers (if applicable).
5. Whether the political committee is established by two or more individuals, a business entity, a labor union or other organization, or by Legislative Leadership or Caucus.
6. A statement indicating the purpose of the political committee, i.e. whether the committee is established for a single primary, election or referendum – a "durational" political committee – or for ongoing political activities – an "ongoing" political committee.
7. For ongoing political committee, whether it is formed to influence state elections (statewide offices, General Assembly, Probate Judge), municipal elections (mayor, first selectman, alderperson, board of education, etc.), or both.
8. For political committees formed to support or oppose any referendum question, a brief statement identifying the substance of the question.
9. For durational political committees formed to support a single or multiple candidates, the name and party affiliation of each candidate that the committee supports and the office sought by each candidate.
10. For political "slate committees," the names of the candidates who established the committee and whose campaigns the slate committee will fund (the committee must fund at least two candidates).

Important Note: For more information on political slate committees serving as the funding source for a slate of candidates, please refer to the Commission's [A Guide for Municipal Candidates](#).

11. If the political committee is established by a business entity, labor union or other organization or association, the name of the entity, union or organization.
12. If the political committee is established by a labor union or other organization, whether it will receive funds from the organization's treasury or from voluntary member contributions.
13. If the entity, union or organization which established the political committee is a component member of a statewide entity, the name and address of the statewide entity.
14. If the committee is established or controlled by a member of the General Assembly, an elected State Officer, or a lobbyist registered with the Office of State Ethics or immediate family member, or any *principal of a state contractor*, prospective state contractor, or investment services firm, or an agent of any of the above, a statement disclosing that relationship and the name of the member of the General Assembly, elected State Officer, lobbyist or principal. Note that there are two types of lobbyists in the State of Connecticut – the individual communicator lobbyists who lobby at the Legislature and the client

lobbyists that retain them.

15. If the political committee is formed to support candidates from a particular state legislative district, a statement to that effect and the district number.
16. If the political committee files reports with the Federal Elections Commission or any out-of-state agency, a statement to that effect, including the name of the agency.
17. The name and address of the individual, business entity or labor organization making the initial contribution or disbursement to the political committee. If the initial contribution or disbursement precedes the filing of the registration statement, the political committee treasurer must file an itemized campaign finance disclosure statement ([SEEC Form 20](#)) itemizing this transaction along with the registration statement. If the contribution or disbursement is made after the filing of the registration statement, the treasurer must file an itemized statement ([SEEC Form 20](#)) within 48 hours of receiving that initial contribution or disbursement.
18. A designation indicating whether the political committee is authorized to make contributions to candidates for statewide office and/or General Assembly. ***The chairperson may designate only those offices to which the political committee can legally contribute under Connecticut law.***
19. Signed and dated certifications by the chairperson, treasurer, and deputy treasurer (if applicable) of the political committee. (Please note that a special certification applies to political committees which are legislative caucus or leadership committees.)

[General Statutes §§ [9-602\(a\)](#), [9-605\(b\)](#)]

H. Biennial Re-Registration

Beginning in 2012, all ongoing political committees registered with the Commission are required to file either an amended [SEEC Form 3](#) or [SEEC Form 3NC](#) with the Commission by November 15 of every even-numbered year. A committee may only file the [SEEC Form 3NC](#) if there have been no changes, additions, or deletions to the information contained on the committee's most recent [SEEC Form 3](#) on file with the Commission at the time of the biennial filing requirement.

Important Note (2013 Law Change): Under prior law, the chairperson of a political committee was required to file the biennial re-registration. This duty may now be performed by the treasurer, unless it involves a change in officer, in which case the chairperson must still report the change. See [Public Act 13-180](#).

The failure to file by the applicable deadline will result in the committee being deemed subject to limitations on making or receiving certain contributions during the legislative session. See Chapter V for more information about these limitations. This amended registration requirement replaces the B-2 and B-3 forms. Rather than complete additional forms, committees simply have to submit an amended [SEEC Form 3](#) every two years. This also helps committees ensure that the information on file with the Commission is current and accurate.

Please keep in mind that the law continues to require committees to submit an amended registration statement to the appropriate filing repository within ten days of any additions or revisions to the information contained in their registration statement.

[General Statutes §§ [9-605\(c\)](#), [9-610\(e\)](#) and [\(f\)](#) (as amended by [P.A. 13-180](#))]

I. “One Person One PAC” Rule

No individual may establish or control more than one political committee.

Two key factors, among many, that could demonstrate that an individual has established or exercises control of a political committee include:

1. serving as chairperson, treasurer or deputy treasurer of the committee; and
2. making the initial contribution to the committee.

Note that this prohibition does not extend to party committees and candidate committees. Accordingly, an individual may serve as the treasurer of both a political committee and a party committee or candidate committee under the law.

A business entity, labor organization, or other person may only establish or control a single political committee. To ensure compliance with this limitation, the business entity, labor organization or other person establishing or controlling a political committee must disclose this affiliation on the committee’s registration statement ([SEEC Form 3](#)).

[General Statutes §§ [9-605\(e\)\(1\)](#), [9-613\(a\)](#), [9-614\(a\)](#)]

Important Note: While an ongoing political committee and party committee may make joint expenditures and may coordinate expenditures with each other, they must be separate committees. A party committee or ongoing political committee may not form any other political committees. See General Statutes § [9-609\(a\)](#).

J. Legislative Leadership and Legislative Caucus Committees

The members of the same political party for each chamber of the General Assembly – i.e., Senate Democrats, House Democrats, Senate Republicans, and House Republicans – may each establish one legislative caucus committee. The chairman of each legislative caucus committee must complete a specific certification on the committee’s registration statement ([SEEC Form 3](#)).

The six highest-ranking leaders of the General Assembly (Speaker of the House, Majority Leader of the House, Minority Leader of the House, President Pro Tempore of the Senate, Majority Leader of the Senate, Minority Leader of the Senate) may each establish a legislative leadership committee. The minority leaders of the House and Senate may also each have an additional legislative leadership committee. These committees must be designated by the respective legislative leader on the committee registration statement ([SEEC Form 3](#)).

These political committees are exempt from the “One Person One PAC” restriction. Thus, an individual may serve as treasurer of another political committee in addition to serving as treasurer of a legislative leadership or legislative caucus committee.

Legislative leadership and legislative caucus committees may only contribute to and make expenditures benefiting legislative candidates. Candidates participating in the

Citizens' Election Program may not accept contributions from one of these legislative political committees, though these committees may still make *organization expenditures* on behalf of such candidates, as discussed later in [Chapter VI. Spending Committee Funds](#).

[General Statutes §§ [9-605\(e\)](#) (as amended by [P.A. 13-180](#)), [9-618\(d\)](#), [9-619\(d\)](#)]

K. Political Committees Formed to Support a Single Candidate

A candidate is prohibited from having more than one candidate committee registered as the funding vehicle for his or her campaign. A candidate who has registered a candidate committee may not establish, authorize or assist in the establishment of any other committee to promote the candidate's campaign.

Consistent with this prohibition, the chairperson of a political committee ***formed solely to support a single candidate*** must notify the candidate of the formation of the political committee by certified mail not later than seven days after the political committee is established. If the candidate does not disavow the political committee in writing to his or her filing repository (the State Elections Enforcement Commission or the town clerk, as the case may be) within fourteen days after receiving such notification, or if the candidate accepts any funds from the political committee, the political committee is automatically deemed to be the candidate's candidate committee. A violation of this prohibition against having two simultaneously existing committees is considered an extremely serious violation of the election laws.

[General Statutes § [9-604\(a\), \(b\), and \(c\)](#)]

L. Political Committees Registered Under Federal Law or in Other States

A political committee registered with the Federal Election Commission under federal law or with another state other than Connecticut may not make contributions or expenditures to or for the benefit of a Connecticut state or municipal candidate or a Connecticut political committee or party committee. A separate committee must first be registered in Connecticut (by filing a [SEEC Form 3](#), designating a treasurer and a depository institution situated in Connecticut) and then must solicit funds specifically for use in Connecticut campaigns in accordance with Connecticut's campaign finance laws. There is one exception to this strict rule – a national committee of a political party may use its federal account to make contributions to an ongoing political committee.

Treasurers receiving such contributions from entities not registered as committees in Connecticut must return the contributions immediately to the donor. Treasurers should check with the town clerk and the State Elections Enforcement Commission to determine whether a committee is properly registered to make contributions in Connecticut.

[General Statutes §§ [9-602\(a\)](#), [9-618\(e\)](#); [Opinion of Counsel 1986-2](#)]

M. Social and Political Clubs

Sometimes, two or more individuals will form a group or club that raises or spends money on diverse things, including (but not limited to) promoting or opposing

candidates or referendum questions *and* promoting or opposing various social or economic issues not related to candidates or referendum questions. Such groups or clubs need to distinguish between their campaign finance-related funds, which are regulated by the Commission, and their other expenditures, which fall outside of campaign finance law and thus are not regulated by the Commission.

When such groups or clubs formed by two or more individuals acting together wish to raise or spend money to promote the nomination or election of candidates or referendum questions, they must follow the rules for political committees. Unless it qualifies for the “safe harbor” as described above, this type of political club must register as a political committee with the appropriate filing repository and conform in every respect to those provisions of [Chapter 155](#) applicable to a political committee established by two or more individuals for ongoing political activities. The group or club’s political committee must maintain a separate checking account – a “political account” – in a Connecticut financial institution for making contributions to candidates or committees and/or making expenditures to promote the success or defeat of candidates.

A political committee may only spend its funds to further its lawful purpose or to make contributions or engage in other activities specifically provided for in [Chapter 155](#). The lawful purpose of a political committee is to promote or oppose candidates or referendum questions. Thus, the club may spend no moneys on candidates or referenda other than those raised for campaign purposes and deposited in the club’s political committee account.

If such clubs wish to engage in social or other activities that do not fall within the lawful purpose of a political committee or are otherwise permitted by [Chapter 155](#), they **cannot** do so using the political committee’s account. To spend money on such non-campaign finance related activities, the group or club must establish a checking account not associated with the political committee. Note that establishing this second account does not run afoul of the law prohibiting a political committee from having more than one bank account, because in this instance, this other bank account is not associated with the political committee. Funds raised and spent through this non-political account do not need to be disclosed under the campaign finance laws.

However, any club or group operating both a political committee account and a non-political committee account is best advised to keep internal records for receipts and expenses made through the non-political committee account in case a complaint is filed alleging the group impermissibly spent money from its non-political account to promote or oppose candidates or referendum questions.

Important Note: In order to avoid making an impermissible expenditure from the political committee account, or to avoid making an expenditure from the non-political committee account that should have been made from its political committee, it is critical to understand the difference between the two accounts. For example, if a social club decides it would like to spend money to raise awareness about an environmental issue, it may not use political committee funds for this purpose but rather should use its non-political committee account. In contrast, if a social club decides it would like to make a contribution to a candidate, it **must** use its political committee funds, since this type of activity is regulated under the campaign finance laws.

With respect to holding events, the club should pay for non-political events from the “social account” and political events from the “political account.” The club must also identify which account will receive proceeds of any fundraising event. No monies other than those raised for campaign purposes and deposited in the club’s political account may be expended on Connecticut political campaigns.

The non-political account may be used for the deposit of funds received in connection with any fundraising event or drive for a specified non-political purpose. The social or non-political purpose of the event or drive should be made known to all prospective donors to the account. By contrast, the political account may only be used for the deposit of club dues intended for the political committee, contributions for the committee’s political activities, and for the payment of the club’s general operating or political expenses.

Important Note: The law expressly permits an ongoing political committee to make 501(c)(3) charitable contributions and memorial contributions. Accordingly, such social clubs may make 501(c)(3) charitable contributions or memorial contributions from either its political committee account or its non-political account.

[General Statutes § [9-618\(a\)](#)]

III. The Role of the Treasurer

A. Makes and Authorizes Expenditures

Only a committee's designated treasurer (or deputy treasurer, when necessary) may authorize and make contributions or expenditures on the committee's behalf. All committee expenditures **must** be authorized by the treasurer and, generally speaking, must be paid by check or debit card drawn on the committee's checking account or by the committee's credit card. Committee checks must contain the committee's name and address, as well as the name of the committee's treasurer.

If the committee has a credit card, the treasurer and deputy treasurer, if applicable, are generally the only individuals who are authorized cardholders. The treasurer may, however, allow the chairperson or a committee worker to be an authorized cardholder of a credit card issued to the committee, provided that the individual's expenditures are: (1) for goods or services that are pre-authorized by the treasurer; and (2) for a lawful purpose of the committee. The treasurer should be particularly careful in opting to authorize the chairperson or a committee worker as an authorized cardholder as such authorization will mean that all expenditures made by the cardholder on that credit card will be deemed to have been authorized by the treasurer, even if the cardholder failed to obtain actual authorization for the particular expenditure in question.

A chairperson or committee worker may only be an authorized holder of a committee credit card, which is paid on a periodic basis. A debit card, which draws directly from the committee checking account, is treated differently under the law. Committee debit cards may **only** be used by the treasurer (or deputy treasurer, when necessary).

[General Statutes § [9-607\(a\), \(d\), \(e\), \(g\)\(2\)\(O\), \(j\) and \(l\)](#)]

B. Deposits All Monetary Receipts

The treasurer must deposit all funds in the committee's single checking account within **twenty days** of receipt.

Important Note (2013 Law Change): Under prior law, treasurers had fourteen days to deposit contributions. Now, treasurers have twenty days after receiving a contribution before they must deposit it into the committee's designated account. See [Public Act 13-180](#).

The treasurer must ensure that any funds received by the committee are lawful and within the aggregate limits permitted under campaign finance law. The treasurer should not deposit any receipt that is either prohibited or otherwise exceeds the permissible limits set forth by law. Instead, the treasurer should return it to the donor within fourteen days of receipt or by the filing deadline for transactions falling within the reporting period, whichever is earlier.

If the treasurer deposits a monetary receipt that is later deemed impermissible, the treasurer must report it on the financial disclosure statement ([SEEC Form 20](#)) and refund the contribution without delay by returning the amount to the donor using a check drawn on the committee's checking account. The treasurer should report any such

refund as an expenditure in Section P of the [SEEC Form 20](#), using the “REF” Expenditure Code. Whenever possible, such refunds should be made in the same reporting period that the funds were deposited. The same rules apply to non-monetary receipts from improper sources or in excess of the relevant contribution limits.

[General Statutes §§ [9-606\(a\)](#) (as amended by [P.A. 13-180](#)), [9-607\(g\)\(2\)\(R\)](#), [9-608\(c\)](#)]

C. Retains All Records and Receipts

The treasurer must retain internal records to substantiate all expenditures made by the committee as permissible. Examples of expenditure records include, but are not limited to:

- bank statements
- travel itineraries
- credit card and debit card slips and statements
- copies of fundraiser tickets
- copies of checks
- loan agreements
- cancelled checks
- invoices
- written receipts supporting any requests for reimbursement
- copies of invitations
- compensation agreements
- copies of printed advertisements (flyers, postcards, etc.)
- bills
- cash register receipts
- copies of ad books for fundraising affairs
- solicitor appointments
- documents describing expenditures incurred but not yet paid

These internal records must be kept for **four years** from the date of the financial disclosure statement in which the transactions were entered.

[General Statutes §§ [9-606\(a\)](#), [9-607\(f\)](#), [9-608\(c\)\(1\)](#)]

There are two recordkeeping requirements under the law that are worth highlighting.

First, in all instances where the committee agrees to pay someone more than \$100 for their work or services, there must be a **written agreement** entered with the individual, signed **before** any such work or service commences, which sets forth (1) the nature and the duration of the fee arrangement; and (2) a description of the scope of the work to be performed or services to be rendered. The treasurer must also maintain contemporaneous records and/or invoices detailing the actual work performed or services rendered.

[[Regulations of Conn. State Agencies § 9-607-1](#)]

Second, treasurers are required to keep an internal list of all individuals they appoint as **solicitors** for the committee, as discussed more fully below.

For more guidance on the types of information that must be collected and retained, see [Chapter VII. Reporting Information](#).

D. Files Periodic Financial Disclosure Statements

The treasurer is also obligated to file all financial disclosure statements on behalf of the political committee. For more information on how and when to submit financial disclosure statements, see [Chapter VII. Reporting Information](#).

[General Statutes § [\(9-608a\)](#)]

E. Appoints and Oversees Solicitors

The only individuals who may receive monetary and non-monetary contributions and donations on behalf of a political committee are the treasurer, deputy treasurer, and *solicitors*. Anyone other than the treasurer or deputy treasurer who receives funds must be appointed as a solicitor by the treasurer. The treasurer may appoint as many solicitors as needed. The treasurer must keep an accurate list of the name and address of each individual who is appointed to serve as a solicitor. Although the names of solicitors need not be disclosed in the committee's financial disclosure statements, the law requires the treasurer to keep internal records, outlining each solicitor appointment and the term of appointment, which may be subject to audit. The treasurer is responsible for training solicitors and overseeing their activities to make sure they are complying with the law.

A solicitor may never deposit committee funds; only the treasurer may deposit funds received by the committee. Within **seven days** of receipt of any goods, funds or contributions, the solicitor must deliver the same to the treasurer. The treasurer must deposit funds within **twenty days** of her receipt from the solicitor, or return impermissible contributions to the contributor(s). A solicitor may not expend funds that he receives and must deliver them only to the treasurer in the form he received them (i.e. cash received from contributors must be delivered in same cash form to the committee's treasurer).

No later than one day prior to the treasurer's required filing date, each solicitor must submit to the treasurer a list of the contributor information (names, addresses, and all other legally required information) of all persons from whom or from which the solicitor collected monetary and/or non-monetary receipts on behalf of the committee. The treasurer must oversee committee solicitors, ensuring that they turn over this list, as well as all contributions received, in a timely manner. The treasurer is also responsible for training and overseeing solicitors to make sure they are complying with the law.

No person may solicit contributions that are prohibited by law.

[General Statutes §§ [9-606\(c\)](#), [9-622\(10\)](#)]

F. Limitations on Who May Solicit Contributions

While communicator lobbyists and principals of current and prospective state contractors are no longer completely prohibited from soliciting for covered political committees in light of [Public Act 10-1](#), some restrictions on their solicitation activities remain:

- Communicator lobbyists, as well as their agents and immediate family members, may not *bundle* contributions for a political committee established or controlled by a candidate for statewide office or General Assembly, including legislative

leadership and legislative caucus committees. “Bundle” is defined as the forwarding of five or more contributions to a single committee by the communicator lobbyist or his immediate family member or agent, or raising contributions for a committee at a fundraising event held by, sponsored by, or hosted by the communicator lobbyist or his immediate family member or agent.

- Communicator lobbyists, as well as their immediate family members and agents, may not solicit on behalf of a political committee established or controlled by a statewide office or General Assembly candidate from any individual who is a member of the board of directors, an employee of or a partner in, or who has ownership interest of five percent or more in any client lobbyist they represent.
- Communicator and client lobbyists are prohibited from soliciting contributions during legislative session, which includes any regular legislature session and any special sessions or vote-override sessions in odd-numbered years, on behalf of a political committee: (1) established for an assembly or senatorial district; (2) established by, in consultation with, or at the request or suggestion of a General Assembly member or statewide officeholder or their agent; or (3) controlled by a General Assembly member or statewide officeholder or their agent to aid or promote the nomination or election of any candidate or candidates to the General Assembly or statewide office.
- No *state contractor* or *prospective state contractor* or principals thereof with respect to a contract with the executive branch may knowingly solicit contributions on behalf of a political committee authorized to give to statewide office candidates from the contractor’s employees or one of its *subcontractors* or the *principals of the subcontractor*.
- No state contractor or prospective state contractor or principals thereof with respect to a contract with the legislative branch may knowingly solicit contributions on behalf of a political committee authorized to give to General Assembly candidates from the contractor’s employees or one of its subcontractors or the subcontractor’s principals.

Note that a political committee may be subject to one or more of these restrictions depending on how it is organized.

[General Statutes §§ [9-601\(26\)](#), [9-610\(e\)](#), [\(h\)](#), and [\(i\)](#), [9-612](#)]

The following individuals are *prohibited* from soliciting contributions from a principal of an investment services firm on behalf of any political committee: the State Treasurer or any candidate for State Treasurer, any agent of any such candidate, the Deputy State Treasurer, any member of the State Investment Advisory Council, and any unclassified employee in the office of the State Treasurer acting on behalf of the State Treasurer or Deputy State Treasurer.

[General Statutes § [9-612](#)]

For more information on the state contractor, lobbyist, and investment services solicitation provisions, please see [Chapter V. Restrictions Based on Who Gives and Solicits Funds](#).

Elected statewide officeholders and deputies, as well as members of the General Assembly, may generally solicit for political committees. However, statewide

officeholders and General Assembly members, any candidates for such offices, and agents of any such officials or candidates may not knowingly, willfully or intentionally solicit contributions on behalf of a political committee from a person who she knows is prohibited from making contributions, including a principal of a state contractor or prospective state contractor with regard to a state contract solicitation with or from a state agency in their respective branch.

[General Statutes § [9-612](#); [Advisory Opinion 1983-2](#)]

Municipal employees may not solicit funds for the benefit of a political committee from an individual under their supervision or that individual's spouse or dependent children.

[General Statutes § [9-622\(12\)](#)]

IV. Raising Funds for Your Committee

A political committee may raise funds by collecting contributions from individuals and other committees, subject to certain limitations discussed below. While contributions are often monetary in nature, they may take other forms as well. In addition to contributions which are subject to limits on the amount that may be given, there are other types of funds or things a committee may receive that do not count toward the committee's contribution limits. These few categories are narrowly defined. In most instances, these receipts or "donations" remain reportable.

Political committees may raise funds by holding fundraising events, which include political gatherings sponsored by the committee for which it charges an attendance fee, or tag sales or auctions at which the committee sells items to its invited guests. The issues which most commonly arise concerning a fundraising event are whether the funds given or received are treated as contributions or as receipts which are not contributions, and how to disclose these types of receipts, if at all, on the committee's financial disclosure statement.

This section provides information regarding permissible and impermissible contributions, other permissible sources of funds for political committees, and the appropriate means by which funds may be collected. For more information on how to report these contributions and receipts, see [Chapter VII. Reporting Information](#).

A. Contributions

1. Sources and Limits

The following section lays out the contribution limits imposed on political committees based on the type of political committee.

a. Business Entity Political Committees

Permissible Contributions

A political committee established by a *business entity* may accept contributions subject to the following aggregate limits per contributor per calendar year:

Table 1 - Contribution Limits to Business Entity Political Committees

CONTRIBUTOR	LIMIT
Individual	\$1,000*
Another Political Committee	\$2,000**
State Central Committee	\$2,500
Town Committee	\$1,500
National Committee of a Political Party	Unlimited***

Important Note (2013 Law Change): Under prior law, an individual was allowed to contribute up to \$750 per year to a political committee established by a business entity. This limit has increased to \$1,000 per year. See [Public Act 13-180](#).

* Individual must be a United States citizen or a foreign national with permanent status in the United States. If the individual is under eighteen years of age, the limit is \$30 per calendar year. The communicator lobbyist and state contractor contribution provisions may also apply; see [Chapter V. Restrictions Based on Who Gives and Solicits Funds](#) for more information.

** The donor committee must be registered in Connecticut. Also, contributions from legislative leadership and legislative caucus committees are prohibited.

*** Such contributions must come from the committee's federal account, on file with the Federal Election Commission. The federal account may contain only funds subject to the contribution and disclosure limits prescribed in the Federal Election Campaign Act (i.e. no transfers from "soft money" accounts). Such contributions may also be subject to federal restrictions.

[General Statutes §§ [9-611\(e\)](#), [9-612](#) (as amended by [P.A. 13-180](#)), [9-617](#), [9-618](#), [9-619](#); [2 U.S.C. § 441e](#); [11 C.F.R. § 110.20](#)]

A business entity political committee may solicit voluntary contributions from the sponsoring entity's employees through **payroll authorization cards**. The treasurer must retain the completed and signed payroll authorization cards and must obtain new authorizations annually. The contributor must have the right to designate the amount to be contributed and the right to refuse to participate at all without consequences.

If the business entity is, for example, a professional association that collects **dues** from its members (as well as from other sources), it may set up a similar process where a portion of the dues goes to the affiliated political committee as contributions as long as it follows these same guidelines outlined above *and* can ensure that the dues are being paid by a permissible contributor (i.e. an individual member as opposed to a business entity). In other words, if a member has the ability to pay his dues through use of a business credit card, this would not be permissible.

[[Advisory Opinion No. 1980-3](#)]

Impermissible Contributions

A political committee established by a business entity may **not** receive contributions from the following sources:

- A business entity, except with respect to administrative or fundraising costs from the business entity which established the committee, as is more fully discussed below;
- A labor union or any other organization;
- A candidate committee of a candidate for statewide office or General Assembly;
- A Judge of Probate or municipal candidate committee, except with respect to surplus distributions, as is more fully described later in this chapter;

- A committee of a candidate for federal or out-of-state office;
- A referendum committee, except with respect to surplus distributions, as more fully described later in this chapter;
- A legislative caucus or legislative leadership committee; or
- A political committee or party committee not registered under Connecticut law, except for a national committee of a political party as set forth in the preceding section.

[General Statutes §§ [9-608\(e\)](#), [9-613\(a\) and \(b\)](#), [9-614\(a\)](#), [9-616\(a\)](#), [9-618\(d\) and \(e\)](#), [9-620\(a\)](#)]

Transfers from Affiliated Business Entity

A business entity cannot make a contribution to any political committee, including a political committee established by the business entity. However, a business entity may make ***reasonable and necessary transfers or disbursements*** to or for the benefit of its political committee only if they are:

1. reasonable and necessary; ***and***
2. directly attributable to either (a) the administrative costs of operating the political committee or (b) the solicitation of funds for the political committee. Such disbursements are reported in Section F, "Amount Transferred from Affiliated Business Treasury," of the [SEEC Form 20](#).

As far as the business entity transferring money to the political committee to assist in its solicitation of funds, the Commission has determined that an amount equal to one-third or less of the proceeds raised by the political committee's solicitation of funds is a reasonable amount for the business entity to spend on the solicitation costs. An amount in excess of one-third of proceeds must be reimbursed by the political committee to the business entity in order to avoid a prohibited contribution.

Disbursements made strictly for administrative operating costs are not subject to the one-third rule but must still be both reasonable and necessary. The committee must retain internal records showing that the disbursements were permissible under the law.

[General Statutes § [9-613\(b\)](#); [Opinion of Counsel 1999-3](#)]

b. Organization Political Committees

Manner of Funding

A political committee established by an organization must designate on its initial registration statement whether it will receive funds exclusively either from the organization's ***treasury*** or from voluntary contributions made by its ***members***. It cannot receive funds from both.

If the organization has elected to fund its political committee through member contributions, the political committee may solicit voluntary contributions from the organization's members through ***payroll authorization cards***. The treasurer must retain the completed and signed payroll authorization card and must obtain new authorizations annually. The contributor must have the right to designate the amount to be contributed and the right to refuse to participate at all without consequences.

If the organization is set up to collect **dues** from its members, it may set up a similar process where a portion of the dues goes to the affiliated political committee as a contribution as long as it follows these same guidelines outlined above *and* can ensure that the dues are being paid by a permissible contributor (i.e. an individual member as opposed to a business entity). In other words, if a member has the ability to pay his dues through use of a business credit card, this would not be permissible.

An organization political committee may alter its manner of funding after its establishment. To do so, it must first notify the appropriate filing repository in writing of its intent to alter its manner of funding. Within fifteen days of that notification, the treasurer must return any remaining funds in the committee’s account to the organization’s treasury after satisfying all outstanding debts of the committee. Within seven days of that distribution, the treasurer must file a statement with the filing repository itemizing all distributions and expenditures made in this process. Upon such filing, the committee may begin receiving contributions from members. For ease of reporting, the treasurer should coordinate this changeover process, including these transitional transactions, with the close of a reporting period.

[General Statutes § [9-614](#); [Advisory Opinion No. 1980-3](#)]

Permissible Contributions

An organization political committee may accept contributions subject to the following aggregate limits per contributor per calendar year:

Table 2 - Contribution Limits to Organization Political Committees

CONTRIBUTOR	LIMIT
Individual	\$750*
Another Political Committee	\$2,000**

* The political committee may only accept contributions from individuals if the organization has elected to fund the committee through voluntary member contributions. If so, individual contributors must be **members** of the affiliated organization and also meet all other qualifications for contributors under federal and state law. Individual members must be United States citizens or foreign nationals with permanent status in the United States in order to contribute. Individual members under eighteen years of age may contribute a maximum of \$30 per calendar year. The communicator lobbyist and state contractor contribution provisions may also apply; see Chapter V for more information. If the organization has elected to fund its committee through the organization’s treasury, then contributions from individuals, including members, are **prohibited**.

** The donor committee must be registered in Connecticut. Also, the committee may not receive contributions from legislative leadership or legislative caucus committees.

[General Statutes §§ [9-611\(e\)](#), [9-612](#), [9-614](#), [9-617](#), [9-618](#), [9-619](#); [2 U.S.C. § 441e](#); [11 C.F.R. § 110.20](#)]

Impermissible Contributions

A political committee established by an organization may not receive contributions from the following sources:

- An individual (if the political committee has elected to be funded exclusively from its organization's treasury funds);
- An individual who is not a member of the organization;
- A labor union or any other organization, except that a political committee that has opted to be funded exclusively from its own organization's treasury may accept funds from the organization that established the committee;
- A business entity;
- A party committee (town or state central);
- A national committee of a political party;
- A candidate committee of a candidate for statewide office or General Assembly;
- A Judge of Probate or municipal candidate committee, except with respect to surplus distributions, as is more fully described later in this chapter;
- A committee of a candidate for federal or out-of-state office;
- A referendum committee;
- A legislative caucus or legislative leadership committee; or
- A political committee not registered under Connecticut law.

[General Statutes §§ [9-608\(e\)](#), [9-613\(a\)](#), [9-614\(a\)](#), [9-616\(a\)](#), [9-618\(d\)](#) and [\(e\)](#), [9-620\(a\)](#)]

Transfers from Affiliated Organization

Monetary and non-monetary receipts may only be accepted from the organization which established the committee if: (1) the committee has elected to be financed exclusively from the organization's treasury funds; and (2) the chairperson of the committee has properly designated such method of funds on its registration statement. Such transfers are reported in Section G, "Amount Transferred from Affiliated Labor Union or Other Organization Treasury," of the [SEEC Form 20](#).

[General Statutes § [9-614](#)]

c. Two or More Individual Political Committees

Permissible Contributions

A political committee established by two or more individuals may accept contributions subject to the following aggregate limits per contributor per calendar year:

Table 3 - Contribution Limits to Two or More Individual Political Committees

CONTRIBUTOR	LIMIT
Individual	\$1,000*
Another Political Committee	\$2,000**
State Central Committee	\$2,500
Town Committee	\$1,500
National Committee of a Political Party	Unlimited***

Important Note (2013 Law Change): Under prior law, an individual was allowed to contribute up to \$750 per year to a political committee established by two or more individuals. This limit has increased to \$1,000 per year. See [Public Act 13-180](#).

* Individual must be a United States citizen or a foreign national with permanent status in the United States. If the individual is under eighteen years of age, the limit is \$30 per calendar year. The communicator lobbyist and state contractor contribution provisions may also apply; see [Chapter V. Restrictions Based on Who Gives and Solicits Funds](#) for more information.

** The donor committee must be registered in Connecticut. Also, contributions from legislative leadership and legislative caucus committees are prohibited.

*** Such contributions must come from the committee’s federal account, on file with the Federal Election Commission. The federal account may contain only funds subject to the contribution and disclosure limits prescribed in the Federal Election Campaign Act (i.e. no transfers from “soft money” accounts). Such contributions may also be subject to federal restrictions.

[General Statutes §§ [9-611\(e\)](#), [9-612](#) (as amended by [P.A. 13-180](#)), [9-617](#), [9-618](#), [9-619](#); [2 U.S.C. § 441e](#); [11 C.F.R. § 110.20](#)]

Impermissible Contributions

A political committee established by two or more individuals may not receive contributions from the following sources:

- A business entity;
- A labor union or any other organization;
- A candidate committee of a candidate for statewide office or General Assembly;
- A Judge of Probate or municipal candidate committee, except with respect to surplus distributions, as is more fully described later in this chapter;

- A committee of a candidate for federal or out-of-state office;
- A referendum committee, except with respect to surplus distributions, as is more fully described later in this chapter;
- A legislative caucus or legislative leadership committee; or
- A political committee or party committee not registered under Connecticut law, except for a national committee of a political party as set forth in the preceding section.

[General Statutes §§ [9-608\(e\)](#), [9-613\(a\) and \(b\)](#), [9-614\(a\)](#), [9-616\(a\)](#), [9-618\(d\) and \(e\)](#), [9-620\(a\)](#)]

d. Political Committees Established for a Single Election or Primary (including Political “Slate Committees”)

Permissible Contributions

A political committee established for a single election or primary may accept contributions subject to the following aggregate limits per contributor per calendar year:

Table 4 - Contribution Limits to Single Election or Primary Political Committees

CONTRIBUTOR	LIMIT
Individual	\$1,000*
Another Political Committee	\$2,000**
State Central Committee	\$2,500
Town Committee	\$1,500

Important Note (2013 Law Change): Under prior law, an individual was allowed to contribute up to \$750 to a political committee established for a single election or primary. This limit has increased to \$1,000. See [Public Act 13-180](#).

* Individual must be a United States citizen or a foreign national with permanent status in the United States. If the individual is under eighteen years of age, the limit is \$30 per calendar year. The communicator lobbyist and state contractor contribution provisions may also apply; see [Chapter V. Restrictions Based on Who Gives and Solicits Funds](#) for more information.

** The donor committee must be registered in Connecticut. Also, contributions from legislative leadership and legislative caucus committees are prohibited.

[General Statutes §§ [9-611\(e\)](#), [9-612](#) (as amended by [P.A. 13-180](#)), [9-617](#), [9-618](#), [9-619](#); [2 U.S.C. § 441e](#); [11 C.F.R. § 110.20](#)]

Impermissible Contributions

The following sources of contributions are impermissible:

- A business entity or any other type of entity;
- A labor union or any other organization;
- A candidate committee of a candidate for statewide office or General Assembly;
- A municipal or Judge of Probate candidate committee, except with respect to surplus distributions, as is more fully described later in this chapter;
- A committee of a candidate for federal or out-of-state office;
- A referendum committee, except with respect to surplus distributions, as is more fully described later in this chapter;
- A national committee of a political party;
- A legislative caucus or legislative leadership committee; and
- A political committee or party committee not registered under Connecticut law.

[General Statutes §§ [9-608\(e\)](#), [9-613\(a\) and \(b\)](#), [9-614\(a\)](#), [9-616\(a\)](#), [9-618](#), [9-619](#), [9-620\(a\)](#)]

2. “In-Kind” Contributions

The above-mentioned contribution limits and prohibitions apply to all contributions, whether monetary or in-kind. An *in-kind contribution* is the donation of goods, services or anything of value given free of charge or at a discount, i.e. at less than the usual and normal charge to the recipient committee. An in-kind contribution is valued at the usual and normal charge less any amount paid by the recipient committee and must be disclosed in Section M of the committee’s financial disclosure statement ([SEEC Form 20](#)).

Uncompensated services provided by an individual who **volunteers** his or her personal time to a committee are *not* an in-kind contribution and need not be reported. However, services that are provided by an individual for which that individual receives compensation from another committee, individual, or any other entity, must be reported as an in-kind contribution, and are subject to source and amount restrictions. If an individual provides his services at a discount not available to all others on the same terms, the amount of the discount is a contribution. Moreover, if the volunteer provides things of value to the campaign as part of his volunteer service that are not otherwise exempt from the definition of contribution, he must either be reimbursed for such items or the committee can report the items as an in-kind contribution, if within the appropriate limits.

Example of an In-Kind Contribution: Susan enjoys designing websites and has decided to volunteer her personal time and services to create and maintain a website for XYZ political committee, using her own personal computer. However, the cost of hosting the committee website and purchasing a domain name will total \$100. While Susan is permitted to use her own personal computer and provide her personal time and computer skills as part of her volunteer services, either the political committee must reimburse her for the cost of the site hosting and domain name or that cost must be reported as an in-kind contribution from her to the political committee.

3. Loans as Contributions

Loans that are not made in the ordinary course of business by a bank are considered contributions, and are subject to the overall limit on contributions to the committee. For example, the sum of an individual's contributions and loans to a business entity political committee cannot exceed \$1,000 in a calendar year. The amount of the contribution is equivalent to the principal amount of the outstanding loan. An unpaid loan, when added to other contributions from the same contributor, may not exceed the contribution limit applicable to that contributor. Repayments made on the loan reduce the amount of the contribution. Once repaid in full, a loan no longer counts against the contributor's contribution limit. The committee treasurer and the individual or entity making the loan must execute a **written agreement**, and the treasurer must retain a copy of the agreement for the same period as other internal records.

[General Statutes §§ [9-601a\(a\)\(1\) and \(b\)\(1\)](#), [9-608\(c\)\(1\)\(E\)](#)]

4. Contributions in False Name

No person may make a payment or contribution to a treasurer in another person's name other than the name of the true donor or payor, nor may any treasurer knowingly receive such a payment or contribution. A treasurer is prohibited from entering the name of someone other than the true donor or payor on the committee's financial disclosure statement.

[General Statutes § [9-622\(7\)](#)]

B. Other Sources of Funds – Donations & Funds Not Considered Contributions

The most common way by which political committees raise funds is receiving contributions from permissible sources. In addition, political committees may accept certain monetary and non-monetary receipts which are not considered contributions under the law. The following is a list of the most significant types of such receipts. Some of these categories must still be reported and where appropriate, we provide information regarding how to report them. For more information on reporting, see [Chapter VII. Reporting Information](#).

Treasurers must be mindful that these exemptions are **narrow** and each receipt constitutes a "contribution" unless it squarely falls within one of the narrowly defined exemptions.

[General Statutes § [9-601a\(b\)](#)]

1. Reportable Receipts

The following types of receipts are reportable even though they are not considered contributions. Once the limit imposed by a given exemption is exceeded, the entire receipt must be reported as an itemized contribution (if permissible) in Section B, "Itemized Contributions from Individuals" of [SEEC Form 20](#).

a. Certain Items of Personal Property Donated by an Individual For a Committee Fundraiser

An **individual** may donate an item or items of personal property to a committee for a fundraising event, or purchase such an item or items at the event and not have it counted as a contribution, if the aggregate amount of the donation or purchase does not exceed **\$100**.

For donations, report in Part II of [SEEC Form 20](#), under Section L4, "In-Kind Donations Not Considered Contributions." For purchases, treasurers are no longer required to report the names of individuals who purchase an item or items at a fundraising event if the cumulative amount purchased does not exceed \$100. Such fundraiser purchases are reported in lump sum in Section L1, "Fundraiser Event Information," for the filing period.

[General Statutes §§ [9-601a\(b\)\(9\)](#), [9-608\(c\)\(1\)](#)]

Important Note: The full amount of a monetary receipt for an item purchased at a fundraising event is reported and is not reduced by the value of the item (i.e. price paid for a television purchased at a committee sponsored tag sale is not diminished by the fair market value of the television).

EXAMPLE A: Jane Doe donates six commemorative plates to a political committee to be sold at a tag sale, and the value of each plate is \$10, for a total of \$60. This non-monetary receipt is not a contribution but must be reported in Section L4 as an in-kind donation from Jane.

EXAMPLE B: June Smith buys one of the commemorative plates at the tag sale for \$10. This is a donation not considered a contribution because her overall purchase does not exceed \$100. The political committee does not have to itemize June's purchase but rather may aggregate the \$10 with any other purchases not considered contributions at the event and report that lump sum in subpart 1 of Section L1 without disclosing the individual names of June or any other such purchasers.

EXAMPLE C: John Smith buys the remaining five commemorative plates at the tag sale for \$10 each, for a total of \$50, as well as a table for \$60. He has made a \$110 contribution because the purchase price is over \$100. This monetary receipt constitutes a \$110 contribution from John Smith that is counted against his contribution limit to the committee and must be separately itemized in Section B of [SEEC Form 20](#).

b. Certain Business Entity Donations

Generally speaking, political committees must pay fair market value when purchasing goods or services. Donations and discounts from a business entity would be considered an in-kind contribution from an impermissible source. There are, however, two narrow exceptions to this prohibition.

A business entity (e.g. a restaurant) may sell to a political committee food or beverage at a discount as long as the charge is not less than the cost to the business entity and the cumulative value of the discount given is not more than **\$600** with respect to any calendar year. These discounts are not considered in-kind contributions because of this exception and are reported in Part II of [SEEC Form 20](#) in Section L4, "In-Kind Donations Not Considered Contributions."

[General Statutes § [9-601a\(b\)\(6\)](#)]

Second, the donation by a business entity of goods or services for a fundraising event may also be a permissible source of funds if the aggregate value of the goods or services does not exceed **\$200**. These items would also be reported in Section L4 as in-kind donations not considered contributions.

Please note that a business entity may **only** donate goods or services that it sells or provides as part of its business. A business entity may not purchase goods for a fundraiser or provide funds to a committee with which to buy goods under this exception. If the value of the goods or services provided **exceeds** \$200, then the entire amount is a **prohibited business entity contribution**.

EXAMPLE D: ABC Corporation, a printing company, donates free printing services to a committee for a fundraising picnic worth \$150 in value. This non-monetary receipt is not a contribution but must be reported as an "in-kind donation" in Section L4. Note that ABC Corporation would not be able donate \$150 worth of pizza for the picnic because it is not in the business of selling pizza.

EXAMPLE E: The same corporation donates an **additional** \$100 worth of printing to the fundraising affair. It has made a prohibited contribution because the value of the printing – now at \$250 for this event – exceeds \$200 and therefore this exemption does not apply. The in-kind contribution may not be accepted and must either be returned immediately by the treasurer, or purchased from ABC Corporation.

[General Statutes § [9-601a\(b\)\(12\)](#)]

Note that, as described more fully earlier in this chapter, a business entity may also make **reasonable and necessary transfers or disbursements** to or for the benefit of its affiliated business entity political committee for administrative costs or the solicitation of funds subject to certain restrictions.

c. Ad Purchases

Another exception to an impermissible business contribution is a business entity's purchase of advertising space in a program for or on signs at a fundraising affair held by a political committee (other than an exploratory committee) if the purchase price for the space does not exceed **\$250** in the calendar year. Other persons can avail themselves of this exception, though they are limited to ad purchases of up to **\$50**. "Other persons" for this purpose may be individuals, other committees, labor unions, and other organizations. If the purchase exceeds the given limit, then the entire amount constitutes a contribution. For example, if an individual purchases \$200 worth of advertising space for a fundraiser ad book, this amount is above the \$50 limit and therefore should be reported as a \$200 contribution from the individual. If a business entity purchases \$300 worth of advertising space for fundraiser ad book, this amount is

above the \$250 limit and the entire amount is therefore an impermissible business contribution.

Important Note (2013 Law Change): Previously, only town committees and municipal candidate committees could make use of the ad purchase exemption. Now, **political committees**, aside from exploratory committees, are permitted to utilize this exemption as well. The same limits apply. See [Public Act 13-180](#).

To facilitate this process, the Commission has provided a sample advertising purchase form for political committees, available on its website, www.ct.gov/seec.

Communicator lobbyists and their family members, and state contractors, prospective state contractors, and principals of state contractors and prospective state contractors are prohibited from purchasing advertising space for political committee fundraisers, even if they are permitted to make a contribution to the political committee.

The advertising space purchase exception applies *cumulatively* to all purchases by the same business entity or person during a calendar year. Moreover, in order to utilize this exception, the fundraising event must be a **bona fide** event intended to make a profit exclusive of any receipts from the sale of ads, and there must be an actual program for the fundraising event and/or a sign at the event. These transactions are reported in Part II of the [SEEC Form 20](#) in Section L3, "Purchases of Advertising in a Program Book or on a Sign."

EXAMPLE F: XYZ Corporation purchases \$200 in advertising space in a program booklet for a fundraising dinner sponsored by a political committee. This monetary receipt from the corporation is not a contribution and may be accepted. As previously stated, the treasurer is required to report all monetary receipts whether or not the funds received constitute a contribution to the committee. The \$200 purchase is reported in the name of XYZ Corporation, together with other program booklet advertising receipts, in Section L3. XYZ Corporation may subsequently purchase no more than \$50 of advertising space in program books or on fundraiser signs for other fundraising affairs held by the same committee throughout the remainder of the calendar year.

[General Statutes §§ [9-601\(10\)](#), [9-601a\(b\)\(10\)](#) (as amended by [P.A. 13-180](#))]

d. House Parties

There are also special provisions relating to expenses of a fundraising affair or gathering held for a political committee by an individual at his residential premises (or a community room in the individual's residence facility).

If a host pays for such a party to benefit a political committee and the aggregate cost to the host for invitations, food or beverages for the event does not exceed \$400 (or \$800 for two or more events in any calendar year), then these costs are not considered contributions to the committee. If an event is hosted by two or more individuals on behalf of a political committee, with at least one of the hosting individuals owning or residing at the residential premises, and the aggregate cost for the event does not exceed \$800 total (with each host paying no more than \$400), then these costs are also not considered to be contributions to the committee.

Such costs are in-kind receipts that are not counted against such individual's contribution limit, but must be disclosed in Section L4 of the [SEEC Form 20](#) as an "in-kind donation." If the cost to the host(s) exceeds \$400/\$800, the entire value is an in-kind contribution that is counted against the contribution limit of the individual(s) and must be disclosed in Section M as an "in-kind contribution."

In order for the event to qualify for the "house party" exemption, the entire cost of the event (invitations, food, and beverages) should not exceed the \$400/\$800 amount. Thus, the committee cannot plan to hold a far more costly event and merely pay for any amount that exceeds that limit. In other words, the \$400/\$800 amount is not an offset for a more costly party. However, a candidate or committee may pay for a portion or all of the costs of the **invitations** for the event. The amount paid by the candidate or committee for invitations is not counted toward the calculation of the cumulative value of the party provided by the host(s) for purposes of determining whether the event falls within the house party exemption.

Important Note (2013 Law Change): Under prior law, in order to make use of the house party exemption, the host(s) had to pay for the *entire* cost of the event – for all of the invitations, food and beverages. While the host(s) must still generally pay for all costs associated with the event, a candidate or committee may now pay for a portion or all of the costs of the invitations for the event, as detailed above. See [Public Act 13-180](#).

The homeowner or resident may also provide his or her home free of charge and the committee can pay for all costs associated with the event.

Important Note: Communicator lobbyists and their agents and immediate family members may not host a house party as a **fundraiser** for a political committee authorized to give to statewide office or General Assembly candidates as this would constitute bundling. Such individuals may host a house party that is not a fundraiser. For political committees subject to the state contractor restrictions, principals of state contractors may still host a house party for such committees, whether a fundraiser or not, as long as they do not invite those individuals they are prohibited from soliciting. In addition, they should take great care not to exceed the house party limits as this would constitute a prohibited contribution.

[General Statutes §§ [9-601\(27\)](#), [9-601a\(b\)\(5\)](#) (as amended by [P.A. 13-180](#)), [9-601b\(b\)\(8\)](#) (as amended by [P.A. 13-180](#)), [9-608\(c\)](#), [9-610\(i\)](#)]

e. Surplus Distribution of Funds from Terminating Committees

Some terminating committees may distribute their surplus to certain types of political committees. Treasurers of the recipient committees must be mindful of the type of committee seeking to distribute its surplus in order to ensure compliance.

A **political committee formed for a referendum question** which has a surplus after the vote on the question may distribute its surplus to a political committee organized for ongoing political activities subject to the following limitations:

1. If the referendum committee did **not** receive any contributions from *any* business entities or organizations, it may distribute a portion or its entire surplus to a ongoing political committee; and

2. If the referendum committee received contributions from any business entities or organizations, it may only distribute its surplus to contributors on a proportional basis. Thus, a political committee that contributed to the referendum committee may only receive its proportional share of the surplus based on the amount of its contribution to the committee.

[General Statutes §§ [9-608\(e\)](#), [9-620\(a\)](#)]

Terminating ***Judge of Probate and municipal candidate committees and political slate committees*** may also distribute their surplus to political committees without limit after a primary day which results in the defeat of the candidate(s) or after the election, provided that the receiving committee has not been established to finance future political campaigns of the candidate(s). The Commission has concluded that a political committee is deemed to have been established to finance future political campaigns of a candidate where 26% or more of the committee's expenditures go to the candidate's future campaigns.

A political committee may **never** accept surplus distributions from a ***candidate committee for statewide office or General Assembly***.

Distributions from terminating ***political slate committees*** and ***exploratory committees*** (where the candidate withdraws before forming a candidate committee) may be made to political committees, with the exception of political committees established by organizations which may not receive such distributions.

[General Statutes §§ [9-608\(e\) and \(f\)](#), [9-614\(a\)](#), [9-620\(a\)](#); [Final Decision 2006-194](#)]

2. Non-Reportable Receipts

The following types of receipts are also not considered contributions and do not require special reporting.

a. Donation of Food or Beverages for a Non-Fundraising Event

An individual may donate food or beverages for consumption at a political committee meeting, event or activity that is **not** a fundraising affair and such donation would not be considered a contribution to the extent that the cumulative value of the food or beverages donated by the individual for a single meeting or event does not exceed **\$50**. Such food or beverage donations are no longer reported on the [SEEC Form 20](#) but the treasurer should keep internal records of the donations (a list of the individuals and what they brought, any receipts provided) in order to substantiate that they did not exceed the \$50 limit. If the value of the food or beverages exceeds \$50 for the event, then the entire value should be reported as an in-kind contribution to the committee in Section M of the [SEEC Form 20](#).

Note that this exemption may be applied in conjunction with a house party that is **not** a fundraiser. For example, if an individual hosts a house party meet-and-greet for a political committee, that individual may spend up to \$400 on the cost of invitations, food, and beverages which is not considered a contribution, and a guest may then bring food or beverage to the event, which also would not be considered a contribution if the value of the food or beverages does not exceed \$50.

This exemption applies per individual, which means that each attendee may bring food or beverages valued at up to \$50 to a non-fundraising event and none would be considered contributions.

[General Statutes §§ [9-601a\(b\)\(17\)](#), [9-608\(c\)\(1\)](#)]

b. Communications to the Restricted Class

A corporation, organization, or association may pay the costs of directly communicating with certain groups on political topics, including expressly advocating the election or defeat of a specific candidate, without making a contribution to that candidate. For business entities, the restricted class includes owners, shareholders, executive and administrative personnel and their families – but not all employees of the business generally. For organizations, the restricted class includes its members and their families.

[General Statutes § [9-601a\(b\)\(2\)](#)]

EXAMPLE G: XYZ Corporation invites the chairperson of XYZ Corporation Political Committee to a shareholders' meeting to discuss the political committee's upcoming activities. This is a communication limited to members of the business' restricted class and therefore any associated costs are not contributions.

EXAMPLE H: The same corporation pays the associated costs to mail the political committee's campaign materials out to all of the corporation's clients. XYZ Corporation is in violation of the law because it has paid for a communication distributed outside of the restricted class.

c. Use of Facility Space

Generally, a political committee must pay fair market value for use of facility space. A business entity or organization may, however, provide use of its facility space to a political committee at a discount or for free, provided the business entity or organization:

1. customarily makes the space available to clubs, civic or community organizations or other groups at a discount or for free;
2. makes the space available on the same terms given to other groups using the space; and
3. makes the space available to any other candidate or committee upon request.

If a business entity or organization does not meet each of these three criteria, then it may not provide use of its facility space to a political committee for free or at a discount as it would constitute an impermissible business entity or organization contribution. (Note that if the committee must still pay something for use of the space, then this of course would be reported as a traditional expense in Section P of the [SEEC Form 20](#).)

[[Advisory Opinion 2010-02](#)]

d. De Minimis Campaign Activity

The value associated with *de minimis* campaign activity done on behalf of a political committee is not considered a contribution. This includes the creation of electronic or

written communications on a voluntary basis without compensation, including, but not limited to, the creation and ongoing content development and delivery of social media on the Internet or telephone, the sending or receiving of electronic mail or messages, and the creation of digital photos or videos as part of an electronic file. Social media refers to any electronic media where users create and view user-generated content, such as uploaded or downloaded videos or still photographs, blogs, video blogs, podcasts, or instant messages.

Important Note (2013 Law Change): The law passed in 2013 clarifies that included in the definition of *de minimis* activity is the creation of digital photos or video as part of an electronic file. This means, for example, that a volunteer could provide the campaign with a disc of digital photos to be used for campaign purposes and this would not need to be counted as an in-kind contribution from that individual. See [Public Act 13-180](#).

The *de minimis* exception would also extend to the use of personal property or a service that is customarily attendant to the occupancy of a residential dwelling or the donation of an item or items of personal property that are customarily used for campaign purposes by an individual provided the cumulative fair market value of such personal property or service does not exceed \$100 in the aggregate per calendar year.

Important Note: Although not considered contributions, the costs associated with such communications that fall under this provision remain expenditures requiring **attributions** if otherwise needed. For example, if a committee sends out a fundraising invitation by e-mail, the committee's attribution should be included in the email. For more information on the proper attribution, please see [Chapter VI. Spending Committee Funds](#).

[General Statutes § [9-601a\(b\)\(18\)](#) (as amended by [P.A. 13-180](#))]

e. Display of a Lawn Sign

The display of a lawn sign "by a human being or on real property" is not considered a contribution. Thus, while business entities may not make contributions to political committees and therefore may not purchase lawn signs in coordination with a committee, they are permitted to display lawn signs in support of them on their real property. The Commission has defined the term "lawn sign" to mean a sign of a temporary nature measuring not more than 32 square feet.

[General Statutes § [9-601a\(b\)\(7\)](#); [Advisory Opinion 2010-02](#)]

f. Use of Offices and Equipment Provided by a Legislative Caucus or Legislative Leadership Committee

A legislative caucus or legislative leadership committee may provide offices (such as its headquarters), telephones, computers, and similar equipment that it uses to a candidate as a permissible donation not considered a contribution or expenditure. The related costs are reported as expenses of the legislative caucus or leadership committee. Recipient candidates have no reporting obligations if a legislative leadership or caucus committee is sharing use of its office space and equipment under this exemption.

Important Note (2013 Law Change): Under prior law, the use of offices or office equipment that did not result in additional costs to the legislative leadership or legislative caucus committee was treated as an organization expenditure – now, it is treated as donation not considered a contribution or expenditure. Practically speaking, this means that when a legislative caucus or leadership committee allows a candidate or candidates to use its office space and equipment, it no longer has to allocate the cost of the expense and report that allocation among each candidate using them. Rather, the related costs are merely reported as expenses of the legislative caucus or leadership committee. See [Public Act 13-180](#).

[General Statutes §§ [9-601a\(b\)\(19\)](#) (as amended by [P.A. 13-180](#)), [9-601b\(b\)\(14\)](#) (as amended by [P.A. 13-180](#))]

C. Methods of Payment

1. Cash or Check Contributions

Monetary receipts from **individuals** may only be accepted by a political committee in certain forms:

- The first \$100 contributed in the aggregate in a calendar year may be made by cash, personal check, bank instrument or credit card.
- Once the individual has contributed \$100 in the aggregate in a calendar year, any remaining monetary contributions made in that year may only be made by personal check or credit card.

EXAMPLE: Charles gave a \$100 check to a political committee in January. The following month, Charles buys a \$10 ticket for a fundraising event for the same committee. This \$10 is also considered a contribution to the political committee and is counted toward Charles' contribution limit for the year. Since Charles has already given \$100 to the political committee, however, he must pay the \$10 by either check or credit card – he may not use cash.

[General Statutes §§ [9-611\(d\)](#), [9-622\(9\)](#)]

Monetary receipts from any other **committee** that may contribute to the political committee must be made via a check drawn on that committee's designated depository institution.

Political committees may not accept an *anonymous contribution* in **any** amount. Anonymous contributions include funds for which the contributor cannot be determined by any means. The committee treasurer must immediately forward any anonymous cash receipts in full to the State Elections Enforcement Commission for deposit in the General Fund of the State of Connecticut.

[General Statutes § [9-606\(b\)](#)]

2. Credit Card Contributions

Individuals may make contributions to a political committee by credit card (including their personal debit card) either in person, by mail, by telephone or over the Internet. When making contributions in person, by mail or over the telephone, an individual must deliver the contribution to the treasurer or to an appointed solicitor.

A political committee treasurer is personally liable for the deposit of any unlawful contributions, and therefore should exercise diligence to ensure that all funds deposited comply with the law. In order to accept a credit card contribution from an individual, a political committee treasurer should obtain the following information from the individual contributor:

- Contributor's full name;
- Contributor's name as it appears on the credit card;
- Residence address of contributor;
- Billing address on record with card issuer (if different than residence address);
- Contributor's e-mail address (applicable to credit card contributions over the Internet);
- Amount of contribution;
- Certification that contributor is not a principal of a state contractor or prospective state contractor (which includes spouse, dependent children over eighteen, and civil union partners) if the recipient political committee is authorized to make contributions to any candidate seeking office in the branch of government with which the contractor or prospective state contractor is doing or seeking to do business and if contributor's aggregate contributions to the committee exceed \$50 (best practice is to obtain it at all amounts);
- Statement as to whether the individual is a lobbyist, or the immediate family member of a lobbyist, if individual's aggregate contributions to the committee exceed \$50;
- Principal occupation, if individual's aggregate contributions to the committee exceed \$100;
- Name of employer, if individual's aggregate contributions to the committee exceed \$50;
- Donor must affirm the statement: "I am eighteen years of age or older" (for contributions exceeding \$30);
- Donor must affirm the statement: "This contribution is made on my personal credit card for which I have a legal obligation to pay and intend to pay from my own personal funds; payment on this card is not made from the funds of a corporation, labor organization or any other entity"; and
- Donor must affirm the statement: "I am either a United States citizen or a foreign national with permanent resident status in the United States."

The committee must select a merchant account provider (an entity in the business to authorize the processing of credit card transactions) that is able to comply with the requirements set forth in this section. The merchant account provider must therefore be able to supply the committee with all of the above information (where required) as

completed by the contributor on the online contribution form. Specifically, where a political committee may not accept contributions from principals of state contractors, the committee must be able to provide documentation showing that the contributor checked off the state contractor certification or, at the very least, that the contributions could not be processed without this certification being affirmatively checked off. **In addition, the merchant account processor must be able to keep the committee's contributions in a separate, unique (not shared or pooled) merchant account.**

The committee is required to keep the details of each transaction provided by the merchant account provider or payment gateway and to ensure that the Commission is able, upon request, to review all such records (whether held by the committee, merchant account provider or payment gateway on behalf of the committee), including the affirmation provided in the contributor certification form that a personal credit card is being used.

Each committee must promptly send confirmation of each credit card contribution received through the Internet to the contributor by electronic mail to the individual's e-mail address. For contributions received by telephone or mail, the confirmation shall be sent to the contributor by U.S. mail. For credit card transactions made in person, each committee must obtain a signed credit card receipt from the contributor.

Contributions made by credit card shall be deemed received by the committee on the date that the contributor completes the transaction, unless a no charge decision is made within fourteen days of the transaction or by the filing deadline for transactions falling within the reporting period, whichever is earlier. A no charge decision within such time relieves the committee treasurer of any responsibility for reporting the transaction. A committee receiving contributions by credit card must report the full (gross) amount of each contribution before the payment of any fees or deductions to any third party.

The committee's treasurer is responsible for preserving all records of each credit card contribution for four years from the reporting of the transaction.

If you would like to have your online contribution website reviewed by Commission staff, please contact the Compliance Unit at (860) 256-2940.

[General Statutes §§ [9-606\(a\)](#), [9-607\(f\)](#), [9-608](#)]

V. Restrictions Based on Who Gives and Solicits Funds

There are certain restrictions that exist in the law governing contributions and solicitations by lobbyists, principals of state contractors, and principals of *investment services firms*. Whether and how much your committee may accept in contributions from such individuals depends on who is deemed to have **established** or **controlled** your committee and/or to whom your committee is authorized to contribute. In addition, if such individuals play a role in your committee, they may impact to whom your committee may contribute as well. The three provisions will now be discussed in turn.

A. Lobbyist Contribution and Solicitation Provisions

Certain lobbyists, as well as their immediate family members, agents, and political committees established or controlled by them, are prohibited by law from soliciting contributions from certain individuals on behalf of some committees and are restricted in the amount of money they may contribute to certain committees.

A client lobbyist is a lobbyist on behalf of whom lobbying takes place and who makes expenditures for lobbying and in furtherance of lobbying. A communicator lobbyist is a lobbyist who communicates directly or solicits others to communicate with an official or his staff in the legislative or executive branch of government or in a quasi-public agency for the purpose of influencing legislative or administrative action. A lobbyist, in turn, is generally defined as a person who in lobbying and in furtherance of lobbying makes or agrees to make expenditures, or receives or agrees to receive compensation, reimbursement, or both, and such compensation, reimbursement or expenditures are \$2,000 or more in any calendar year or the combined amount thereof is \$2,000 or more in any such calendar year.

If a political committee has questions as to whether a person is a client lobbyist or a communicator lobbyist, it should contact the Office of State Ethics at 860-263-2400 or visit their [website](#).

[General Statutes §§ [1-91\(l\), \(u\) and \(v\)](#), [9-601\(16\)](#)]

1. Lobbyist Sessional Ban

While the General Assembly is in session, client lobbyists and communicator lobbyists and political committees established by or on behalf of them may not make or offer to make a contribution to or solicit a contribution on behalf of: (1) a candidate committee or exploratory committee established by a candidate for General Assembly or statewide office; or (2) a political committee (a) established for an Assembly or Senatorial district; (b) established by a member of the General Assembly or a statewide officer or such member or officer's agent, or in consultation with, or at the request or suggest of, any such member, officer or agent; or (c) controlled by such member, officer or agent to aid or promote the nomination or election of any candidate or candidates to the General Assembly or statewide office. This includes legislative leadership and legislative caucus committees.

The ban is applicable during any regular session of the General Assembly, during any special session of the General Assembly held between the adjournment of the regular

session in an odd-numbered year and the convening of the regular session in the following even-numbered year and during any reconvened session of the General Assembly held in an odd-numbered year to reconsider vetoed bills. The ban begins when the session convenes and ends when the session adjourns.

The sessional lobbyist contribution ban does not apply to (1) a candidate committee in a special election for the office of State Senate or State Representative from the date the candidate files his or her committee to the date of the special election; or (2) an exploratory committee established by a member of the General Assembly to promote his candidacy for an office other than the General Assembly.

The sessional ban applies to any monetary or non-monetary receipt from the lobbyist or political committee established or controlled by the lobbyist, whether or not it is a "contribution," as defined by law. This means, among other things, that the ban supersedes the exception that a business entity, labor union or other organization may communicate (or solicit) with their restricted class and their families on any subject.

All political committees established or controlled by a communicator or client lobbyist must file a certification notifying the Commission of that relationship. **This is accomplished by a new biennial registration process whereby political committees must file an amended [SEEC Form 3](#) with the Commission in November of even numbered years which, in part, provides information about whether the committee is established or controlled by a lobbyist.** The Commission maintains a list of political committees that are prohibited from receiving contributions from lobbyists during the legislative session, as well as a list of political committees prohibited from contributing to those committees during the legislative session because they are established by, on behalf of, or controlled by a lobbyist. The Commission must periodically provide the list to statewide officers and General Assembly leaders, and the lists are also posted on the Commission's website.

Note that if a business entity or organization is a client lobbyist registered with the Office of State Ethics, then any political committee that business entity or organization established is considered established by a client lobbyist for purposes of the sessional ban.

[General Statutes §§ [1-91\(d\), \(u\) and \(v\)](#), [9-610\(e\) and \(f\)](#)]

2. Communicator Lobbyist \$100 Contribution Limit

Communicator lobbyists, as well as their agents and immediate family members, and political committees established or controlled by communicator lobbyists or a member of the immediate family of a communicator lobbyist may now contribute up to **\$100** to: (1) an exploratory committee or candidate committee established by a candidate for statewide office or General Assembly; (2) a political committee established or controlled by any such candidate; (3) a legislative leadership or legislative caucus committee; or (4) a party committee.

Communicator lobbyists, their agents and immediate family members, as well as political committees established or controlled by them, may give up to the normal contribution limits to candidates running or exploring for offices other than statewide office or General Assembly (such as municipal office) and to political committees not established or controlled by statewide office or General Assembly candidates. For more information on what the normal limits are for individuals and political committees

contributing to such committees, please see [Chapter IV. Raising Funds for Your Committee](#).

[General Statutes § [9-610\(g\)](#)]

3. Communicator Lobbyist Solicitation Provisions

Communicator lobbyists, their immediate family members (spouse and dependent children) and agents, and political committees established or controlled by communicator lobbyists or their immediate family or agents may not knowingly solicit contributions from any individual who is a member of the board of directors of, an employee of or a partner in, or who has an ownership interest of five percent or more in, any client lobbyist on behalf of whom the client lobbyist lobbies for the benefit of a candidate committee or exploratory committee established by a candidate for statewide office or General Assembly, a political committee established or controlled by any such candidate, a legislative leadership or legislative caucus committee, or a party committee.

Additionally, communicator lobbyists, their agents and immediate family members are prohibited from bundling contributions for an exploratory or candidate committee established by a candidate for statewide office or General Assembly, a political committee established or controlled by any such candidate, a legislative leadership or legislative caucus committee, or a party committee. "Bundle" is defined as the forwarding of five or more contributions to a single committee by a communicator lobbyist, an agent of such lobbyist, or a member of the immediate family of such lobbyist, or raising contributions for a committee at a fundraising affair held by, sponsored by, or hosted by a communicator lobbyist or an agent of such lobbyist, or a member of the immediate family of such lobbyist.

[General Statutes §§ [1-91\(l\) and \(u\)](#), [9-601\(24\) and \(27\)](#), [9-610\(h\) and \(i\)](#)]

4. Political Committees Considered to be "Established or Controlled By" a Communicator Lobbyist or Member of the Communicator Lobbyist's Immediate Family

A political committee is **established** by a communicator lobbyist or immediate family member of a communicator lobbyist if:

- A communicator lobbyist or member of his immediate family appeared as an officer on the political committee's original registration statement; or
- The business entity or organization that established the committee was a registered communicator lobbyist; or
- For a business entity or organization that is a communicator lobbyist and formed a political committee on or after December 31, 2006, the initial disbursement or contribution to the committee was made by an officer, director, owner, limited or general partner, or at least 5% shareholder of the entity forming the political committee.

If the political committee meets one of the three preceding criteria, then it will be deemed to be "established by" a communicator lobbyist only if the communicator lobbyist **remained** a registered communicator lobbyist as of December 31, 2006 or thereafter.

The Commission considers three factors when determining whether a political committee is **controlled by** a communicator lobbyist or the immediate family member of a communicator lobbyist. To assess this control, the Commission evaluates whether the communicator lobbyist or family member:

- Has substantial involvement or influence in the decision-making concerning how the committee solicits or makes contributions or expenditures, or in the day-to-day activities of the political committee;
- Directs or participates in the appointment or selection of the committee's officers; and/or
- Serves as committee chairperson, treasurer, deputy treasurer or other officer.

[\[Declaratory Ruling 2006-2\]](#)

Important Note: Political committees should be mindful when they decide to involve a communicator lobbyist or immediate family member or agent of a communicator lobbyist in their committee. If such an individual plays one of the previously enumerated roles in the political committee, then that person can transform the political committee into one controlled by a communicator lobbyist. This means that the political committee will be limited in how much it can contribute to covered committees and may face certain solicitation restrictions, as discussed earlier. Political committees must be sure to keep their registration statement updated and amend if any circumstances change.

5. Political Committees Considered to be "Established or Controlled By" a Candidate for Statewide Office or General Assembly"

Each political committee must identify whether it has been established or controlled by a candidate for statewide office or General Assembly on its registration statement ([SEEC Form 3](#)).

The Commission will consider several factors to determine whether a political committee is **established by** a candidate for a covered office, including whether:

- One of the individuals serving as an officer of the committee at the time of its formation was a candidate for a covered office;
- A candidate for a covered office made the initial disbursement or contribution to the committee; and/or
- A candidate for a covered office had an active or significant role in the formation of the committee.

The committee will be deemed to have been established by a candidate for a covered office only if the candidate who established it is presently a candidate or incumbent officeholder on or after December 31, 2006.

As for whether the committee is **controlled by** a candidate for a covered office, the Commission considers whether the candidate:

- Has substantial involvement or influence in the decision-making concerning how the committee solicits or makes contributions or expenditures, or in the day-to-day activities of the political committee;

- Directs or participates in the appointment or selection of the committee's officers; and/or
- Serves as committee chairperson, treasurer, deputy treasurer or other officer.

6. Exemption for Communicator Lobbyists who are Candidates

The above-mentioned restrictions on communicator lobbyists contributing to, bundling for, or soliciting certain individuals on behalf of certain candidate, exploratory, political and party committees do not apply to the campaign of a communicator lobbyist, immediate family member of a communicator lobbyist or agent of a communicator lobbyist who is a candidate for public office or to an immediate family member of a communicator lobbyist who is an elected public official.

[General Statutes § [9-610\(j\)](#)]

B. State Contractor Contribution and Solicitation Provisions

State contractors, prospective state contractors, and their principals, with regard to a *state contract* or state contract solicitation with the **Executive** branch, as well as principals of a holder of a valid prequalification certificate issued by the Commissioner of Administrative Services, are prohibited from making contributions to and from knowingly soliciting contributions from their employees and from their subcontractors and principals of their subcontractors on behalf of:

- An exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Secretary of the State, Treasurer, Comptroller, and/or Attorney General;
- Any political committee authorized to make contributions to Statewide candidates; and
- Any party committee.

State contractors, prospective state contractors, and their principals, with regard to a state contract or state contract solicitation with the **Legislative** branch, as well as principals of a holder of a valid prequalification certificate issued by the Commissioner of Administrative Services, are prohibited from making contributions and from knowingly soliciting contributions from their employees and from their subcontractors and principals of their subcontractors on behalf of:

- An exploratory committee or candidate committee established by a candidate for nomination or election to the office of state senator and/or state representative;
- Any political committee authorized to make contributions to General Assembly candidates; and
- Any party committee.

[General Statutes § [9-612](#)]

Important Note: Political committees can be affected by the state contractor provisions in one of two ways – either as the recipient committee of a contribution by a principal of a state contractor or as a principal in its own right which cannot contribute to the covered committees.

1. Definition of a State Contractor

a. "State Contract" Defined

"State contract" is defined as any single agreement or contract with the state or any state agency in the Executive or Legislative branch of state government or any quasi-public agency having a value of \$50,000 or more, or a combination or series of such agreements or contracts having a value of \$100,000 or more in a calendar year, for (i) the rendition of services, (ii) the furnishing of any goods, material, supplies, equipment or any items of any kind, (iii) the construction, alteration or repair of any public building or public work, (iv) the acquisition, sale or lease of any land or building, or (v) a grant, loan or loan guarantee.

The types of state contracts that are covered by these provisions are broad. For instance, if a business or nonprofit organization receives a fee or remuneration from a third party as a result of the business entity's or nonprofit's agreement with the state, the agreement would constitute a state contract provided the financial threshold is satisfied, even if the state does not directly pay the fee or remuneration.

Contracts with the judicial branch are not included for purposes of the underlying prohibition on contributions. The other limited exceptions to the definition of state contract are those contracts or agreements that are exclusively federally funded, educational loans, or loans to an individual for other than commercial purposes (e.g. a loan for the purchase of residential property) and contracts with the United States Department of the Navy or the United States Department of Defense.

[General Statutes § [9-612](#)]

b. "State Contract Solicitation" Defined

State contract solicitation means a request by a state agency or quasi-public agency, in whatever form issued, including, but not limited to, an invitation to bid, request for proposal, request for information or request for quotes, inviting bids, quotes, or other types of submittals, through a competitive procurement process or another process authorized by law waiving competitive procurement.

[General Statutes § [9-612](#)]

c. "State Contractor," "Prospective State Contractor," and "Subcontractor" Defined

State contractor refers to a person, business entity, or nonprofit that enters into a state contract. Such person, business entity, or non-profit is deemed a state contractor until December 31 of the year in which such contract terminates.

Prospective state contractor refers to a person, business entity, or nonprofit that (1) submits a response to a state contract solicitation by the state, a state agency, or a quasi-public agency, or a proposal in response to a request for proposals by the state, a state agency, or a quasi-public agency, until the contract has been entered into, or (2) holds a valid prequalification certificate issued by the Commissioner of Administrative Services.

Subcontractor refers to a person, business entity or nonprofit that contracts to perform part or all of the obligations of a state contractor's state contract. Such person,

business entity or nonprofit organization is deemed a subcontractor until December 31 of the year in which the subcontract terminates.

The law further clarifies that state contractors and prospective state contractors do not include a municipality or other political subdivision of the state, entity, or association created by a municipality or political subdivision, or an employee in the Executive or Legislative branches or a quasi-public agency, whether in the classified or unclassified service or full or part-time (in such person's capacity as a state or quasi-public agency employee).

[General Statutes § [9-612](#)]

d. "Principal" Defined

The principals of state contractors and prospective state contractors for purposes of the contribution and solicitation provisions are as follows:

For **Business Entities** (all types of businesses, regardless of its form of organization):

- Members of the Board of Directors;
- Owners of at least 5% of the business;
- President, Treasurer, and Executive Vice President;
- Employees with Managerial or Discretionary Responsibility with respect to the state contract, meaning those employees who have direct, extensive, and substantive responsibilities with respect to the negotiation of the state contract rather than peripheral, clerical, or ministerial responsibilities;
- The Spouse and Dependent Children (children who are eighteen years of age or older, residing in the individual's household, and who may be legally claimed as a dependent on the individual's federal income tax return) of any of the above; and
- Any **political committee** established or controlled by the business entity or by any of the above individuals.

For **Nonprofits** (all types, regardless of tax-exempt status):

- Chief Executive Officer or, if none, officer with comparable powers and duties;
- Employees with Managerial or Discretionary Responsibility with respect to the state contract, meaning those employees who have direct, extensive, and substantive responsibilities with respect to the negotiation of the state contract rather than peripheral, clerical, or ministerial responsibilities;
- The Spouse and Dependent Children (children who are eighteen years of age or older, residing in the individual's household, and who may be legally claimed as a dependent on the individual's federal income tax return) of any of the above; and
- Any **political committee** established or controlled by the nonprofit organization or by any of the above individuals.

The members of the Board of Directors of a nonprofit are not considered principals for purposes of these provisions.

Note that the law applies the same definition of principal for purposes of the subcontractor solicitation ban (discussed below).

[General Statutes § [9-612](#)]

Important Note: Political committees should be mindful when they decide to involve a principal of a state contractor in their committee. If such an individual established or controls the political committee, then that individual can transform the political committee into one established or controlled by a principal of a state contractor. This means that the political committee would be considered a principal of a state contractor in its own right and therefore the state contractor solicitation and contribution provisions apply to it, further limiting the types of contributions it may make. For more information on what constitutes being “established or controlled by” a principal of a state contractor, please see the discussion in the previous section on the Lobbyist Contribution and Solicitation Provisions.

e. Exemption from Prohibitions for Principals of State Contractors and Prospective State Contractors who are Candidates or Elected Public Officials

A principal of a state contractor or prospective state contractor may run for office and may establish his or her own candidate or exploratory committee, and solicit contributions for such committee from the state contractor’s employees, as well as its subcontractors and employees of its subcontractors (unless such individuals are prohibited from contributing to his campaign), without violating the state contractor solicitation provisions.

Moreover, a principal of state contractor or prospective state contractors who is an elected public official is not covered by the state contractor provisions and may therefore make and solicit contributions that would otherwise be deemed prohibited under these provisions.

EXAMPLE: Representative Smith’s husband is a principal of a state contractor with regard to a contract with the Legislative branch. Mr. Smith cannot make a contribution to a political committee authorized to make contributions to General Assembly candidates. Representative Smith is also deemed a principal of a state contractor, by virtue of her husband’s status. She, however, can make a contribution to the political committee because she is also an elected public official and is therefore exempt.

[General Statutes § [9-612](#)]

2. Determining Whether a Contributor is a Principal of a Current or Prospective State Contractor

Generally, a contributor will know whether he or she meets the definition of a principal of a current or prospective state contractor. State agencies are also required to provide a notice to their state contractors and prospective state contractors, advising them of the contribution and solicitation restrictions, directing them to provide notice of the law to their principals, and informing them of the possible consequences of violations of the law by using the [SEEC Form 10](#) or [SEEC Form 12](#) or by incorporating the contents of this notice into its contracts. The chief executive officer of the state

contractor or prospective state contractor, or an authorized signatory to the contract, must submit a written acknowledgement to the contracting agency that the contractor received this notice. State contractors and prospective state contractors are then required to inform their principals of the restrictions and potential penalties for any violation of these restrictions.

The Commission also maintains three lists of state contractors and prospective state contractors on its website, www.ct.gov/seec. Please note that these lists are based on information from the State Comptroller's office and reporting by the state agencies and are **not** exhaustive. Accordingly, the fact that a contributor's employer is not listed on one of the state contractor lists does not foreclose the possibility that the employer is a state contractor or prospective state contractor.

A treasurer can best protect him or herself by having each contributor complete and sign a contributor certification form for every contribution regardless of the amount, which certifies to the contributor's status as a principal of a current or prospective state contractor. A treasurer is entitled to rely on such certifications and it will provide the treasurer with a good faith reliance defense should the contributor later be deemed to be a principal of a state contractor or prospective state contractor.

Treasurers are not required to obtain and keep more than one certification form for each contributor, unless information certified to by the contributor (other than the amount contributed) changes. However, if the information has changed and the treasurer has not obtained a new certification, the old certification will not act to protect the treasurer against liability. Because of this, the Commission strongly recommends that the treasurer obtain a new certification form for every contribution.

If you would like assistance in creating a certification form for your committee or in having it reviewed, please contact the Compliance Unit at (860) 256-2940.

[General Statutes § [9-612](#)]

3. Receipt of a Prohibited State Contractor Contribution

a. "Right to Cure" Improper Contribution

There is a statutory "Right to Cure" which provides that improper contributions may be returned to avoid the legal consequences of the state contractor provisions. If a principal of a state contractor or prospective state contractor inadvertently violates the campaign contribution prohibition, no legal consequences arise if, and only if, the improper contribution is returned by the recipient committee treasurer to the principal within thirty days of receipt of the contribution or the campaign report filing date corresponding with the reporting period in which the contribution was made, whichever is later.

For example, if a spouse of a state contractor with an executive branch agency makes a contribution to a political committee authorized to contribute to Statewide candidates in February, and the treasurer of the recipient candidate returns the contribution by April 10, which is the applicable filing date for the period requiring reporting of such contributions, no violation occurs, and no penalties can be assessed. It is suggested that if such an improper contribution is made, the principal making such contribution request the refund in writing, and as soon as the problem is discovered.

If the improper contribution is not discovered until thirty days from its receipt have

passed, the committee should contact the Commission's Compliance Unit for further assistance.

[General Statutes § [9-612](#)]

b. Civil and Criminal Penalties for Violation of State Contractor Provisions

A treasurer of a committee that is prohibited from receiving contributions from a principal of a state contractor or prospective state contractor and who does so is subject to potential civil and/or criminal penalties.

The Commission may also impose civil penalties against the principal of up to \$2,000 per offense, or twice the amount of the contribution, whichever is greater. The Commission may also seek criminal prosecution against the violator if there is evidence that the violation was committed knowingly and willfully. The crime is considered a Class D felony, which is punishable by up to five years imprisonment or a \$5,000 fine, or both. The Commission could also impose civil penalties on the state contractor or prospective state contractor if it is determined that it did not make reasonable efforts to comply, such as by informing its principals of the applicable prohibitions and consequences.

[General Statutes §§ [9-7b](#), [9-623](#)]

C. Investment Services Contribution and Solicitation Ban (State Treasurer)

Any political committee formed by a firm which provides investment services to the State Treasurer and any political committee formed by any principal of such firm is barred from soliciting or making a contribution to any candidate or exploratory committee for nomination or election to the office of State Treasurer during the term of the State Treasurer who does business with such firm.

The ban applies to the incumbent State Treasurer and all challengers, and to an exploratory committee of any candidate who is considering a campaign for nomination or election as State Treasurer.

In addition, the following individuals are prohibited from soliciting contributions from a *principal of an investment services firm* on behalf of a political committee: the State Treasurer or any candidate for State Treasurer, any agent of any such candidate, the Deputy State Treasurer, any member of the State Investment Advisory Council, and any unclassified employee in the office of the State Treasurer acting at the direction of the State Treasurer or Deputy State Treasurer.

[General Statutes §§ [9-612](#), [9-613\(f\)](#)]

1. "Investment Services" Defined

"Investment Services" means investment legal services, investment banking services, investment advisory services, underwriting services, financial advisory services or brokerage firm services.

[General Statutes §§ [9-612](#), [9-613\(f\)](#)]

2. "Principal" Defined

A principal of an investment services firm means:

- Directors;
- Owners of at least 5% of the business;
- President, Treasurer, Executive Vice President;
- Employees with Managerial or Discretionary Responsibility with respect to any investment services provided to the State Treasurer;
- The Spouse and Dependent Children who are eighteen years of age or older of any of the above; and
- Any **political committee** established or controlled by the business entity or by any of the above individuals.

[General Statutes § [9-612](#)]

3. Consequences Arising from Violation of Ban

Violation of this restriction may prohibit the State Treasurer whose candidate or exploratory committee benefited from such contributions or solicitations from paying compensation, expenses or fees to the firm if they have an existing contract with the State Treasurer or may prohibit the State Treasurer from issuing a future contract to any such firm during the entire term of office of the State Treasurer, including, for an incumbent Treasurer seeking reelection, any remainder of the current term of office. Any questions concerning this prohibition on doing business should be addressed to the Office of State Ethics.

[General Statutes § [1-84\(n\)](#)]

D. Restrictions on Contributions by Certain State Governmental Officials and Unclassified Employees in the Executive and Legislative Branches

There is a contribution limit of **\$100** per calendar year by specified state government officials and employees to certain types of political committees:

- By any head of an executive branch state agency or quasi public agency appointed by the Governor, deputy of any such agency, full-time official or unclassified employee of any such agency or the spouse or dependent children of any such head, deputy, official or employee to a political committee established by a candidate for Governor or Lieutenant Governor.
- By any official or unclassified employee of the Office of the Secretary of the State, Treasurer, Comptroller, or Attorney General, or the spouse or dependent children of any such official or employee to a political committee established by a candidate for the office in which such official or employee serves.
- By any member of a legislative caucus staff in the State Senate or House of Representatives, or the spouse or dependent children of any such staff to a political committee established by any candidate for the General Assembly, including any legislative caucus or legislative leadership committee.

These limitations apply separately to the official or employee and to each member of the immediate family of such official or employee.

[General Statutes § [9-612](#)]

VI. Spending Committee Funds

Spending by political committees must be for the committee's lawful purpose, as discussed more fully below. There are additional guidelines for spending, such as limitations on the amount that a political committee may contribute to other committees and the manner in which a political committee may use cash for expenditures. Finally, there are some prohibitions on spending, such as personal use and buying votes. The permissible uses of political committee funds and guidelines for use are discussed below.

A. Permissible Expenditures

All expenditures by the committee must be made to promote the "lawful purpose" of the committee. For a political committee, this means expenditures for administering the committee (overhead and operating expenses), promoting the success or defeat of candidates for nomination and election to office in Connecticut or the success or defeat of referenda, as well as the promoting of a political party, including party building activities. Expenditures made to solicit contributions for the political committee or to conduct fundraising events are also lawful.

Important Note (2013 Law Change): The new law has added promoting a political party, including party building activities, to the list of lawful purposes for political committee spending. It defines "party building activities" as "any political meeting, conference, convention, and other event, attendance or involvement at which promotes or advances the interests of a party at a local, state or national level, and any associated expenses, including travel, lodging, and any admission or fees or other costs, whether or not any such meeting, conference, convention, or other event is sponsored by the party." See [Public Act 13-180](#).

In addition, the lawful purpose of legislative caucus and legislative leadership committees includes spending funds to defray costs for conducting legislative or constituency-related business which are not reimbursed or paid by the State.

Important Note (2013 Law Change): Under prior law, this additional lawful purpose was limited to legislative *caucus* committees' spending money on their *members*. The new law removes the restriction to members of the committee so that the committee may expend funds to defray the costs of anyone conducting such business and it is also expanded to legislative leadership committees as well. See [Public Act 13-180](#).

Permissible expenditures include but are not limited to the rental of real and personal property, the purchase of computer and other electronic equipment, professional services, office supplies, polling, utilities, and other costs associated with a committee headquarters, printing, postage, photocopying, compensation of committee staff, and campaign advertising.

A political committee may make such expenditures jointly with another committee if both committees are benefiting from the permissible expenditure and each pays its proportional share of the associated cost.

Important Note: Where two committees are making joint expenditures, the treasurers of both committees must approve the expenditures beforehand and must each maintain documentation of the underlying expenditures. It is best to have a written agreement in place beforehand outlining how the underlying expenditures will be paid, which should be based on each committee's proportional share of the associated costs.

Generally speaking, political committees may also make an expenditure on behalf of a candidate committee which can either be (1) reimbursed by the candidate committee (unless the candidate is participating in the Citizens' Election Program ("CEP") and has received a public grant); (2) deemed an *organization expenditure* in the case of legislative leadership or caucus committees, which is not considered a contribution to the candidate committee, see **Organization Expenditures** in Subsection 2 of this section; or (3) deemed a contribution to the recipient (only permissible if the recipient is **not** participating in the CEP), subject to certain limits, as more fully outlined below.

[General Statutes §§ [9-601a\(b\)\(16\)](#), [9-607\(g\)](#) (as amended by [P.A. 13-180](#)), [9-610\(b\)](#)]

1. Permissible Contributions from Political Committees

A political committee may make contributions to other committees subject to the following aggregate limits, which apply separately to primaries and elections unless indicated otherwise:

Table 5 - Political Committee Contribution Limits to Other Committees

OFFICE SOUGHT / COMMITTEE TYPE	LIMIT
Governor	\$5,000 ^{1,2,3,4}
Lieutenant Governor, Secretary of the State, Treasurer, Comptroller, and Attorney General	\$3,000 ^{1,2,3,4,5}
State Senator	\$1,500 ^{1,2,3}
State Representative	\$750 ^{1,2,3}
Probate Judge	\$1,500 ^{2,4}
Chief Executive Officer of the Municipality (e.g. Mayor, First Selectman)	\$1,500 ^{2,4}
Other Municipal Offices	\$375 ^{2,4}
Town Committee Member	UNLIMITED ^{2,4}
Exploratory Committee	\$375 ^{3,4,5}
Political Slate Committee (Municipal Offices)	\$2,000/year ⁴
Political Slate Committee (Town Committee Primary)	UNLIMITED ⁴

OFFICE SOUGHT / COMMITTEE TYPE	LIMIT
State Central Committee	\$7,500/year ^{3,6}
Town Committee	\$1,500/year ^{3,4}
Other Political Committee (Business Entity, Organization, or Two or More Individuals, Single Election or Primary)	\$2,000/year ^{3,4}
Legislative Leadership Committee or Legislative Caucus Committee	\$2,000/year ^{3,4}
Referendum Committee	\$2,000/year ⁴
National Committee of a Political Party	UNLIMITED ^{4,7}
Federal or Out-of-State Candidate Committee	UNLIMITED ^{4,7}

¹ **Candidates participating in the CEP may not receive contributions from political committees.** In limited circumstances, legislative leadership and caucus committees may make organization expenditures on behalf of General Assembly candidates which are not considered contributions. See **Organization Expenditures** in Subsection 2 of this section.

² A political committee established or controlled by a candidate may not make contributions to that candidate's campaign.

³ Additional restrictions may apply if the political committee is established or controlled by a principal of a current or prospective state contractor and/or a communicator lobbyist. See Chapter V for more information.

⁴ Legislative leadership and legislative caucus committees may not make such contributions.

⁵ Any political committee formed by a firm which provides investment services to the State Treasurer and any political committee formed by any principal of such firm is barred from making a contribution to any candidate or exploratory committee for nomination or election to the office of State Treasurer during the term of the State Treasurer who does business with such firm. See Chapter V for more information.

⁶ In the case of legislative leadership and legislative caucus committees, the limit is \$10,000 per year.

⁷ Political committees established for a single primary or election may not make contributions to such committees. Also, committee treasurers must refer to federal law or the laws of the applicable jurisdiction to determine what limitations, if any, exist.

[General Statutes §§ [9-600](#), [9-604](#), [9-613](#), [9-615](#), [9-618](#), [9-619](#)]

Important Note: A political committee is required to indicate on its registration form whether it is authorized to contribute to statewide office and General Assembly candidates or municipal candidates or both. The chairperson may only designate those offices to which the committee may legally make contributions and the committee may not make contributions to candidates running for such offices unless its registration statement has so indicated.

A political committee organized for ongoing political activities may also make unlimited contributions to a charitable organization which is tax exempt under **§ 501(c)(3)** of the Internal Revenue Code and may make **memorial contributions**. In addition, all political committees may make unlimited contributions to the **Citizens' Election Fund**.

[General Statutes §§ [9-618\(a\)](#), [9-619\(a\)](#), [9-751](#)]

A business entity political committee may contribute up to an aggregate of **\$100,000** to all candidates in the same election and primary campaign cycle. An organization political committee may contribute up to an aggregate of **\$50,000** to all candidates in the same election and primary campaign cycle. There is no comparable limit on political committees established by two or more individuals.

[General Statutes §§ [9-613\(d\)](#), [9-615\(c\)](#)]

2. Organization Expenditures (Legislative Leadership and Legislative Caucus Committees Only)

An organization expenditure by a legislative leadership committee or legislative caucus committee is specifically exempted from the definitions of contribution and expenditure for purposes of the campaign finance laws, but remains a reportable transaction for purposes of public disclosure. This means that an organization expenditure does not count against the donor committee's contribution limit because it is exempted from the definition of contribution. **Legislative leadership and legislative caucus committees are the only types of political committees that may make organization expenditures and they may only make them on behalf of General Assembly candidates.**

Organization expenditures may be made **only** for the following purposes:

- The preparation, display, mailing, or distribution of a party candidate listing. A "party candidate listing" is a communication that (1) lists the name or names of candidates, (2) is distributed through public advertising, direct mail, telephone, electronic mail, Internet, or personal delivery, and (3) promotes the success or defeat of any candidate or slate of candidates, or the success or defeat of any referendum question or political party, as long as the communication is not a solicitation for or on behalf of a candidate committee;

Important Note (2013 Law Change): Under prior law, communications in the form of party candidate listings could not negative content about a candidate. Now, the party candidate listing's scope has broadened, as detailed above. See [Public Act 13-180](#).

- Printed or electronic documents including party platforms, an electronic page providing merchant account services to be used by a candidate for the

collection of online contributions, issue papers, information on Connecticut election law, voter registration lists, and voter identification information that a party, legislative caucus, or legislative leadership committee creates or maintains for party or caucus building and gives to candidates who are members of the same party;

Important Note (2013 Law Change): An electronic page providing **merchant account services** to collect online contributions is now also permitted as an organization expenditure. See [Public Act 13-180](#).

- Campaign events at which a candidate or candidates are present; and
- Advisors on campaign organization, financing, accounting, strategy, law, or media.

Important Note (2013 Law Change): Under prior law, a legislative caucus committee or legislative leadership committee could provide offices, telephones, computers and similar equipment that serves as its headquarters or otherwise uses to a candidate as an organization expenditure. Now, this provision is no longer an organization expenditure but is instead a permissible donation from a legislative caucus or leadership committee to a candidate though the contribution and expenditure exemptions. See [Chapter IV. Raising Funds for Your Committee](#) for more information. See [Public Act 13-180](#).

The scope of what constitutes an organization expenditure is narrowly construed. Any committee authorized to make such an expenditure should seek guidance from Commission staff about whether the planned use of funds constitutes a permissible organization expenditure. For the complete definition of organization expenditure, see General Statutes § [9-601\(25\)](#) (as amended by [P.A. 13-180](#)).

Important Note: Legislative leadership committees and legislative caucus committees may only make organization expenditures on behalf of General Assembly candidates.

There are additional restrictions on organization expenditures made on behalf of **General Assembly candidates participating in the CEP**. Legislative leadership and caucus committees may not make any organization expenditures on party candidate listings benefiting participating General Assembly candidates for a primary campaign. In addition, such committees may make only up to \$10,000 in organization expenditures on behalf of a participating candidate running for state senate for the general election and only up to \$3,500 for a participating candidate running for state representative for the general election. These limits will be adjusted biennially in accordance with any change in the consumer price index, beginning in January 2014. For nonparticipating General Assembly candidate committees, there are no limitations on the amount of organization expenditures that legislative leadership and caucus committees may make on their behalf.

For more information on how and when to report organization expenditures, please see [Chapter VII. Reporting Information](#).

[General Statutes §§ [9-601\(25\)](#) (as amended by [P.A. 13-180](#)), [9-601a\(16\)](#), [9-601b\(8\)](#), [9-608\(c\)\(5\)](#), [9-718](#); [Declaratory Ruling 2011-01](#)]

3. Non-Independent (Coordinated) Expenditures

Non-independent expenditures, or coordinated expenditures, are considered contributions under the law and are defined broadly. Recently, the General Assembly amended the definition of independent expenditures. These changes expanded the “rebuttable presumptions” that expenditures made in certain ways or by certain persons or groups, including committees, are coordinated with the candidate. While the candidate committee could overcome this presumption by showing that an expenditure truly was independent, see **Independent Expenditures** below, committees may be served best by knowing how to avoid scenarios that could invoke these presumptions.

Important Note: This section provides a general summary of the current law concerning independent expenditures and provide a few general examples of the rebuttable presumptions. The rebuttable presumption provisions in section 4 of [Public Act 13-180](#) may be found in the appendix to this Guidebook.

The statute points out several instances where the Commission will presume that a coordinated expenditure was made, including but not limited to where:

- The person making the expenditure and the candidate or committee benefiting from the expenditure share the same leadership, consultants, or providers of creative services, including but not limited to advertising campaigns, polling, mail design, mail strategy, political strategy, general campaign advice or telephone banking;
- The person makes an expenditure in cooperation with a candidate or committee or based on information received from the candidate or someone acting on behalf of the candidate about the candidate’s plans or needs;
- The person pays for political advertising or communications that uses material prepared by the benefiting committee or a consultant hired by the benefiting committee;
- The person pays for fundraising affairs on behalf of a committee; and
- The person pays for communications or advertising that clearly identify the candidate and the candidate or a representative of the candidate has been informed about the manner, contents, and target audience, among others, of the communication.

Important Reminder: As noted throughout this Guidebook, the term “person” is defined broadly to mean “[a]n individual, committee, firm, partnership, organization, association, syndicate, company trust, corporation, limited liability company or any other legal entity of any kind but does not mean the state or any political or administrative subdivision of the state.”

Important Note (2013 Law Changes): In section 4 of [Public Act 13-180](#) the legislature amended the rebuttable presumption provisions and added several new rebuttable presumptions. Any person seeking to engage or engaging in independent expenditures may find the rebuttable presumptions as set forth in the law in the appendix of this Guidebook, and may contact the Commission's compliance staff with any specific questions.

Important Note (2013 Law Change): When the Commission is evaluating whether an expenditure is an independent expenditure, it will consider as an effective rebuttal to the rebuttable presumptions that the person making the expenditure has established a firewall policy designed and implemented to prohibit the flow of information between (1) employees, consultants, or other individuals providing services to the person paying for the expenditure; and (2) the candidate and the candidate's agents.

If an expenditure is coordinated by a political committee with a candidate and payment or reimbursement is not made by the candidate committee within a reasonable time, the coordinated expenditure constitutes an in-kind contribution to that candidate's campaign, which is impermissible for a CEP candidate to receive. Moreover, if an expenditure is coordinated by a business entity, labor union, or any other type of entity that is not making the expenditure through a political committee established under Connecticut law, it is an impermissible contribution, regardless of whether the candidate is participating in the Citizens Election Program or not.

[General Statutes § [9-601c](#) (as amended by [P.A. 13-180](#))]

4. Independent Expenditures

"Independent expenditures" occur when a political committee (or other person) makes an expenditure to promote the success or defeat of a candidate without the consent, knowing participation, or consultation of, a candidate or agent of the candidate committee. An independent expenditure does not count as a contribution to the candidate who received the benefit of the independent expenditure. However, such expenditure may impact the political committee making it and the candidates that it supports or opposes. Independent expenditures are **not** "coordinated expenditures."

It is important to understand the distinction between independent and non-independent activities, i.e., those coordinated with a candidate. Because the rules regarding each type of expenditure have very differing consequences, committees should take extra care to ensure that their activities are truly independent when making such expenditures.

Important Note (2013 Law Change): In section 4 of [Public Act 13-180](#) the legislature amended the rebuttable presumption provisions and added several new rebuttable presumptions. Any person wishing to engage in independent expenditures may find the rebuttable presumptions as set forth in the law in the appendix of this Guidebook, and may contact the Commission's compliance staff with any specific questions.

The deadline to submit an independent expenditure report is dependent on the amount and date on which the expenditure was made in relation to the

primary/election. For more information on how and when to report independent expenditures, please see the [instructions to the SEEC Form 20](#).

Important Note (2013 Law Change): The disclosure provisions in [Public Act 13-180](#) require disclosure within 24 hours of making or obligating to make an independent expenditure or expenditures exceeding \$1,000 in the aggregate in relation to the offices for statewide or General Assembly candidates, during the primary or general election campaign period.

As noted earlier, additional information and instructions concerning independent expenditures, including information about disclosure, will be forthcoming and made available on the SEEC website. If making or obligating to make an independent expenditure, please check the SEEC website to be sure you are following the most recent instructions.

[General Statutes § [9-601c](#), as amended by [Public Act 13-180](#)]

5. Joint Fundraising Events to Benefit Two or More Committees

Two or more political committees may form a separate political committee for the purpose of holding one or more fundraising affairs to benefit the committees. A political committee may also form a separate political committee with a party committee for the purpose of holding one or more fundraising affairs, but may not do so with a candidate committee.

Alternatively, a political committee may throw a joint fundraiser with another political committee (or a party committee or candidate committee) without forming a separate political committee as long as contributors write separate checks out to each involved committee. Each committee taking part should pay its proportional share of the cost of the event and include its attribution on any communications concerning the event. The committees should agree to and document the terms of the joint event and all related expenditures before making or committing to make any expenditures for the event.

[General Statutes § [9-609\(a\)](#)]

6. Committee Worker Reimbursements

The committee may reimburse a committee worker if:

1. the worker has paid the expense from his or her own personal funds or personal credit card;
2. the treasurer authorized the expenditure;
3. the worker provides the treasurer with a written receipt from the vendor proving payment by the worker;
4. the expenditure is for a lawful purpose of the committee; and
5. the expenditure is not a contribution to any other committee.

When a committee worker uses personal funds to make authorized expenditures on behalf of the committee and seeks reimbursement, the payment made by the worker will be deemed a contribution to the committee unless the committee reimburses the

worker within a reasonable time. Previously, the Commission has determined that 45 days from the date an expenditure was made or incurred would satisfy this reasonableness test. Imposing this time limit on reimbursement prevents a committee worker from inadvertently making an excessive contribution by, in effect, loaning the committee money.

[General Statutes § [9-607\(g\)\(2\)\(O\)](#)]

7. Petty Cash Funds

The treasurer of a political committee is permitted to establish a single petty cash fund by drawing a check on the committee's account in an amount which may not exceed \$100. The treasurer reports the check as being made out to "cash" in Section P, "Expenses Paid by Committee," of the [SEEC Form 20](#). The treasurer may replenish the petty cash fund from time to time, provided that the total balance of the fund may never exceed \$100, and provided further that the fund is not replenished more than twice in any seven day period.

Expenditures made from a petty cash fund are limited to \$25 per transaction (e.g., purchase of supplies for the committee). The treasurer must maintain a written account of all petty cash expenditure disbursements and internal records documenting how the money was spent (e.g., copies of receipts).

The committee treasurer reports any petty cash returned in Section K, "Miscellaneous Monetary Receipts not Considered Contributions," of the [SEEC Form 20](#).

[General Statutes § [9-607\(e\)](#); [Regulations of Conn. State Agencies § 9-333i-1](#)]

8. Computers and Other Electronic Equipment

There are several ways a committee may access computers and other electronic equipment:

1. A committee may purchase a computer or other type of electronic equipment at fair market value. Electronics purchased with committee funds should be used exclusively for the committee; no personal, business or non-committee use is permitted by law.
2. A committee may choose to lease or rent electronic equipment from any source at fair market value. A **written** memorandum of the terms of the rental agreement must be made, signed and dated, and kept as an internal record of the committee. The committee's payments under the lease must be reported as expenditures in Section P of the [SEEC Form 20](#). Leasing electronic equipment to the committee at less than the fair rental value is an in-kind contribution and must be reported accordingly.
3. A committee may accept the contribution of electronic equipment, or use of electronic equipment, as an in-kind contribution from any source that is able to contribute to the committee, and within the applicable contribution limits. Such contributors may only make an in-kind contribution of a computer or other electronic equipment up to the applicable contribution limit; a discounted lease arrangement valued at more than this limit would constitute an excessive contribution. Sources that may not properly make contributions to the

committee, such as business entities, can only lease electronic equipment to the committee at fair rental value.

4. An individual may perform committee work on a personal computer or with another type of electronic equipment owned by such individual and use of the equipment will not be considered an in-kind contribution. The individual may be the committee chairperson, the committee treasurer or any other committee worker. Use of one's own computer or other type of electronic equipment while working for a committee is not a contribution and does not need to be reimbursed or reported by the committee. However, as noted in the above paragraph, loaning electronics to the committee without charge is considered an in-kind contribution and is permissible only if it comes from a source that may make contributions. The loan of the electronic equipment is also subject to the aggregate contribution limits applicable to such donor.

[General Statutes §§ [9-601a\(b\)\(4\) and \(18\)](#), [9-607\(g\)\(2\), \(3\), and \(4\)](#)]

9. Attribution Requirements

Important Note (2013 Law Change): [Public Act 13-180](#) made some changes to the attribution requirements, particularly regarding independent expenditures.

When a political committee makes expenditures for communications, certain attributions are required, whether the communication supports or opposes a candidate, party, or referendum question, or solicits funds. As with so many of the campaign finance rules following recent court precedent, which rules apply depend upon whether the expenditure is made independently of a candidate, political or party committee or, conversely, is made in coordination with committees or agents of a committee. Thus in order to determine which attribution is required, a political committee must first determine whether the expenditure is coordinated or independent. *Please see the sections above on independent expenditures and non-independent (coordinated) expenditures.*

a. Independent Expenditures

For expenditures made wholly independently of candidates and committees, [Public Act 13-180](#) adds new attribution requirements:

- For independent expenditures for any written, typed or other printed communication, including on a billboard, or any web-based, written communication, the attribution must contain the words "Paid for by [name of political committee]" and the following statement: "This message was made independent of any candidate or political party. "
- If the independent expenditure is made or incurred during the 90-day period immediately prior to the primary or election for which such expenditure is made, the political committee must place on the face of the communication the names of the five persons who made the five largest contributions during the 12-month period immediately prior to the applicable primary or election. The communication must also state that the additional information about the political committee may be found on the SEEC website.

- If the communication is video broadcast by television, satellite, or Internet, it must contain the above information in writing for at least four seconds and must also include it in the audio message at the end of the video communication.
- For audio communications broadcast by radio, satellite or Internet, a personal audio statement by an agent of the political committee should be included in the end of the message (1) identifying the political committee paying for the expenditure, and (2) indicating that the message was made independent of any candidate or political party, using the following form: "I am [name and title of the committee's agent], of [the political committee name]. This message was made independent of any candidate or political party." As above, if the independent expenditure for the audio message is made or incurred during the 90-day period immediately prior to the primary or election for which such expenditure is made, the political committee must include in the audio message the names of the five persons who made the five largest contributions during the 12-month period immediately prior to the applicable primary or election. The communication must also state that the additional information about the political committee may be found on the SEEC website.
- If the independent expenditure is made or incurred for a telephone call (including automated and live telephone calls), the narrative of the telephone call must identify the committee making the independent expenditure and, if the independent expenditure is made or incurred during the 90-day period immediately prior to the primary or election for which such expenditure is made, the political committee must include in the communication the names of the five persons who made the five largest contributions during the 12-month period immediately prior to the applicable primary or election. The communication must also state that the additional information about the political committee may be found on the SEEC website.

b. Contributions and Coordinated Expenditures

For expenditures that are not made wholly independently of candidates and committees, any political committee which finances such communications must include within the communication "Paid for by," together with the full name of the sponsoring committee and the name of its treasurer. The Commission has determined that a political committee may abbreviate its name in the attribution if it has indicated the abbreviation as its "acronym" on the committee's registration statement.

If the coordinated communication supports or opposes a candidate (as opposed to promoting or supporting a political party or soliciting funds to benefit any party or political committee) the communication's attribution must also include on its face the text "Approved by [candidate's name]." If a political committee's communication as described above features five or more candidates, the Commission will not otherwise take any action against a committee whose attribution includes "Approved by," followed by a broad reference to the candidates (e.g., "Approved by the Above Listed Candidates"), rather than all of the candidates' names, provided they are all otherwise clearly identified in the communication.

Coordinated communications constitute an in-kind contribution to that candidate or candidate committee. Accordingly, they should be reported by the political committee to the treasurer of the candidate committee, who should then report them as an in-kind received. Because such coordinated expenditures are in-kind contributions from the political committee to the candidate committee, alternatively the communication may contain the candidate committee's attribution.

Where a legislative leadership or legislative caucus committee sponsors a party candidate listing, although it is not considered a contribution, it too must include the "Approved by" language, followed by the name(s) of the candidate(s) featured.

[General Statutes § [9-621\(a\) and \(b\)](#); [Declaratory Ruling 2011-01](#)]

c. Attribution Requirements for Referenda

If a political committee makes an expenditure for any written, typed or other printed communication which promotes the success or defeat of a referendum question, the communication must contain the following attribution on its face: "Paid for by [name of the political committee], name of treasurer."

For attributions on communications contained in a flyer, leaflet, newspaper, magazine, or similar literature, or that is delivered by mail, the disclaimer required to be on the face of the communication must be at least in **eight-point type of uniform font**.

Important Note (2013 Law Change): Under prior law, there was no font size requirement. Now, where the attribution is on a communication contained in one of the aforementioned media, it may be no smaller than eight-point type of uniform font. See [Public Act 13-180](#).

[General Statutes § [9-621\(k\)](#) (as amended by [P.A. 13-180](#))]

Attributions are **not** required for "political paraphernalia" such as pins, badges, hats, rulers, and bumper stickers. Campaign signs which have a surface area of 32 square feet or less (such as lawn signs) and banners are also exempt from the attribution requirements.

[General Statutes § [9-621\(d\)](#)]

10. Testimonial Affairs

A testimonial affair is an event held in honor of a candidate or in honor of an individual who holds elective office during the term of office. Political committees must be mindful when expending funds for a testimonial affair. A political committee may not hold a testimonial affair unless its purpose is to raise funds for that individual's **candidate committee**. There are two exceptions to this rule:

- A retirement party may be held for an individual who has announced his intent to retire from public office, unless he has a deficit outstanding from any one of his prior campaigns, in which case the proceeds must be used to eliminate the deficit; or
- A testimonial may be held by an entity duly organized for charitable purposes, provided that all proceeds go to the charity.

Anyone who organizes an improper testimonial or fundraiser is subject to civil and potentially criminal liability.

If a political committee conducts a testimonial affair to benefit a candidate or elected official, all funds raised or received must be given to the individual's candidate committee and are subject to the aggregate limits applicable to the candidate committee. For example, individuals purchasing tickets to the testimonial are considered to have made a contribution to the candidate committee for the full amount of the purchase price and must be reported by the candidate committee. In addition, the expenses paid by the sponsoring committee must be reported as an in-kind contribution made by that committee and received by the candidate committee. The sponsoring committee's treasurer must provide the written valuation notice required for in-kind contributions.

Important Note: Where a political committee wants to have an officeholder or candidate present at its fundraising event but does not wish the event to be a testimonial for that individual (i.e. it does not intend to give funds raised to the candidate's campaign but wants to keep all funds raised for itself), the political committee should be careful in how it references the officeholder or candidate in any invitation to the event, if at all, so that the invitation does not suggest the event is essentially a testimonial with funds improperly being kept by the political committee.

[General Statutes § [9-609\(b\)](#)]

11. Campaign Training Events Provided by a Legislative Caucus Committee

A legislative caucus committee may provide campaign training events, as well as associated materials, to multiple individuals and, provided the cost of such events and materials does not exceed \$6,000 in the aggregate during a calendar year, such costs would not be considered contributions or candidates to the participating individuals.

Important Note (2013 Law Change): This is a new exception to the definitions of contributions and expenditures. Practically speaking, this means that where a legislative caucus committee holds such an event, it would not need to allocate the costs among the attending candidates as an organization expenditure or contribution. Note that legislative caucus committees are the only type of committee that may utilize this exception. See [Public Act 13-180](#).

[General Statutes §§ [9-601a\(a\)\(24\)](#) and [\(b\)\(7\)](#) (as amended by [P.A. 13-180](#))]

B. Impermissible Expenditures

1. Contributions to a Candidate who Established or Controls the Committee

A political committee which is established or controlled by an elected official or candidate for elective office, or his/her agent, may not make contributions to that

official/candidate's candidate committee.

[General Statutes § [9-604\(c\)](#)]

2. Prohibition on Gifts, Compensation and Honoraria to Elected Officials

No political committee may make a gift to, compensate or provide an honorarium to any elected public official for any speaking engagement or other services rendered on the committee's behalf except through such public official's candidate committee, if applicable. However, a public official may be reimbursed for actual travel and food and beverage expenses incurred by the official or member of the official's immediate family in connection with the engagement. In addition, the political committee may make a contribution to the official's candidate committee in connection with the engagement provided that it is reported on the committee's campaign finance disclosure statement and the candidate neither established nor controls the committee. Candidates participating in the CEP cannot receive such contributions.

[General Statutes § [9-607\(h\)](#)]

3. Personal Use

No goods, services, funds or contributions received by any political committee may be made available for the personal use of any candidate or individual. Expenditures for "personal use" include expenditures to defray normal living expenses for a candidate, the immediate family of a candidate, or any other individual (such as committee chairperson or treasurer). Expenditures for personal use are those that have no direct connection with, or effect upon, the lawful purpose of the committee. Examples of such expenditures include rent or mortgage payments for residential or business purposes, clothing, shoes, groceries, and personal subscriptions. This prohibition is not applicable to reimbursements to candidates or committee workers for goods and services purchased by them for committee purposes.

[General Statutes § [9-607\(g\)\(2\)\(L\) and \(4\)](#)]

4. Vote Buying and Selling

No person may knowingly give, lend or promise to give or lend any money or other valuable consideration to any other person to influence the other person to vote, or refrain from voting for or against any candidate. Any person who votes for or against any candidate in consideration of any gift or other valuable consideration received shall be guilty of illegal practices.

[General Statutes § [9-622\(1\)](#)]

VII. Reporting Information

A. Who Reports?

The treasurer or, in the treasurer's absence or inability, the deputy treasurer, is required to file all financial disclosure statements.

[General Statutes §§ [9-601\(13\)](#), [9-608\(a\)](#)]

B. How and Where to Report?

The [SEEC Form 20](#) "Itemized Campaign Finance Disclosure Statement" or, if applicable, the [SEEC Form 21](#) "Short Form Finance Disclosure Statement," must be filed with the filing repository with which the committee is registered (i.e. the State Elections Enforcement Commission or the town clerk). For more information on the appropriate repository, see [Chapter II. Responsibilities of the Committee Chairperson](#).

All ongoing political committees are required to file a [SEEC Form 20](#) for their filings due January 10th and on the 7th day preceding an election. With the exception of these filings, an ongoing political committee may use a [SEEC Form 21](#) when it has **not** received contributions or other funds or made or incurred expenditures in excess of \$1,000 from January 1 of the calendar year through the close of the reporting period covered by the statement. Once the committee exceeds that amount, it is required to file the [SEEC Form 20](#). Moreover, once a committee files a [SEEC Form 20](#), the committee treasurer must continue to use the [SEEC Form 20](#) for all of the committee's remaining required financial disclosure statements for that calendar year.

Further, committees should keep in mind that if they opt to file using [SEEC Form 21](#), they will still be required to report **all** activity since the beginning of the year when they file their first [SEEC Form 20](#). Accordingly, the committee treasurer **must** keep track of all information from the beginning of the year, regardless of the amount received or spent.

In the case of political committees registered with the Commission that use eCRIS (more fully explained below) and file a [SEEC Form 20](#) after having filed one or more [SEEC Form 21](#)'s, the committee will be required to: (1) amend the [SEEC Form 21](#) covering the period in which the first financial activity occurred by amending the [SEEC Form 21](#) to change it to a [SEEC Form 20](#) and reporting that financial activity; (2) amend all subsequent [SEEC Form 21](#)'s submitted after that initial [SEEC Form 21](#), to report any activity in those periods and to correct the summary totals, regardless of whether activity occurred in that particular period; and (3) after this "look back" reporting has been completed in eCRIS, submit the itemized statement ([SEEC Form 20](#)), covering the period laid out in the filing calendar. If the committee is not filing by eCRIS, then its first filed itemized statement ([SEEC Form 20](#)) must cover a period that begins with January 1 as the start date.

A political committee formed for a single primary or election need not file a [SEEC Form 20](#) unless and until it receives or expends in excess of \$1,000 for purposes of the primary or election for which such committee was formed. If it never reaches this threshold, it may continue to file a [SEEC Form 21](#) throughout its duration. If it exceeds the \$1,000 threshold, it is required to file the [SEEC Form 20](#) and must continue to use the [SEEC Form 20](#) for all of the committee's remaining required financial disclosure statements. The first

[SEEC Form 20](#) must include **all** of the reportable financial transactions which have occurred since inception.

EXAMPLE: An ongoing political committee does not raise or spend more than \$1,000 from January 1 to March 31 of this year. The treasurer files a [SEEC Form 21](#) (Short Form) for the April 10th filing. By June 30, the committee exceeds the \$1,000 threshold, requiring the treasurer to file the [SEEC Form 20](#) for the July 10th filing, covering **all** financial activity between January 1 and June 30. The committee must file all subsequent reports using the [SEEC Form 20](#) for the rest of the calendar year.

[General Statutes §§ [9-603\(a\)](#), [9-608\(b\)](#)]

C. Electronic Filing

Political committees registered with the State Elections Enforcement Commission are permitted to file any financial disclosure statements required by General Statutes § [9-608](#) in electronic form. Town clerks cannot accept filings electronically.

The Commission's Electronic Campaign Reporting Information System ("eCRIS") enables treasurers to electronically submit required committee registration information and campaign finance statements detailing the receipts and expenditures of the committee. In addition, eCRIS provides its users with prompts and alerts treasurers to potential compliance issues. This tool is available to political committees and is fully supported by our eCRIS helpdesk.

eCRIS users may also benefit from the following:

- Treasurers can upload campaign finance data into eCRIS from Excel and other campaign management software applications using eCRIS's online interface;
- Treasurers may assign the data entry function to another individual and review the report for errors before filing;
- Treasurers can make amendments to previously filed registration or disclosure statements quickly; and
- Calculations required by law are system-generated, including aggregates for contributions and expenditures, thereby reducing potential errors.

The website for eCRIS is located at <http://seec.ct.gov/eCris/eCrisHome.aspx>.

D. What Information Must Be Reported?

All monetary receipts, whether or not such receipts constitute contributions, must be reported in the period received, as well as all non-monetary receipts that constitute contributions (i.e. in-kind contributions). Certain non-monetary receipts received in connection with a fundraising affair, whether or not they constitute contributions, as well as expenditures made or incurred by the committee must also be reported on the financial disclosure statement.

When a treasurer would like to incorporate computer spreadsheets or forms, or other schedules or attachments as part of the committee's filings, it is important to duplicate the section headings and all of the data elements that appear in [SEEC Form 20](#).

[General Statutes § [9-608\(c\)](#)]

1. Reporting Receipts

a. Contributions from Individuals

Monetary contributions received from an individual that are \$50 or less in the aggregate during the calendar year (or since inception in the case of a political committee established for a single primary, election, or referendum) do not need to be itemized and can be entered in Section A entitled "Total Contributions from Small Contributors – Received this Period Only." However, the treasurer must still keep an **internal record** of the contributor's name and address so that the contribution can be aggregated with any other contributions that the individual has made or will make in that calendar year (or since inception in the case of a political committee established for a single primary, election, or referendum). To assist with recordkeeping and compliance with the required aggregation, the treasurer may also choose to itemize contributions that are \$50 or less in Section B entitled "Itemized Contributions from Individuals."

All monetary contributions in excess of \$50 must be itemized in Section B. Moreover, when monetary contributions exceed \$50 for the calendar year (or since inception in the case of a political committee established for a single primary, election, or referendum) from an individual who was previously reported as a small contributor in Section A, the contributor **must** be itemized in Section B on the next scheduled statement.

All non-monetary contributions are to be itemized as in-kind contributions in Section M of [SEEC Form 20](#), regardless of amount.

[General Statutes § [9-608\(c\)\(1\) and \(4\)](#)]

Monetary contributions received from an individual that are over \$50 in the aggregate for the calendar year (or since inception in the case of a political committee established for a single primary, election, or referendum) and all non-monetary contributions require disclosure of the contributor's name, address, amount received during the relevant reporting period, method of contribution, date of the contribution, the aggregate amount given, and whether the contributor is a lobbyist or the spouse or dependent child of a lobbyist. Moreover, if the political committee is authorized to contribute to statewide office or General Assembly candidates, the individual must also provide with the contribution the name of her employer and a certification that she is not a principal of a state contractor or prospective state contractor. For individuals who contribute to the committee in excess of \$100 in the aggregate for the calendar year (or since inception in the case of a political committee established for a single primary, election, or referendum), the treasurer must also report their principal occupation to the extent known.

[General Statutes § [9-608\(c\)\(1\) and \(3\)](#)]

If a committee treasurer of a political committee authorized to contribute to statewide office and/or General Assembly candidates receives a contribution over \$50 that does not include a state contractor certification, the treasurer shall:

1. not later than three days after receiving the contribution, send the contributor a request for the certification by certified mail, return receipt requested;
2. not deposit the contribution until the certification is received; **and**

3. return the contribution to the contributor if the contributor does not submit the certification not later than fourteen days after the treasurer's written request or at the end of the reporting period in which the contribution was received, whichever is later.

[General Statutes § [9-608\(c\)\(3\)](#)]

Monetary receipts in the form of personal checks written on **joint accounts** should generally be attributed to the individual who signs the check. If both individuals on a joint checking account sign the check, then the contribution should be allocated equally between them. One or both of the account holders may also submit a signed statement (e.g. a certification card) indicating how the check should be allocated differently (i.e. non-equally) between them or to one of them only, and the contribution should be allocated in accordance with that statement.

Important Note (2013 Law Change): Under the prior law, contributions written from a joint checking account could only be allocated to both holders if both of them signed the check. With the passage of [Public Act 13-191](#), joint checking account holders are now permitted to submit a signed statement (e.g. a certification card) and have the check allocated in accordance with that statement even if only one of them has actually signed the accompanying check. See [Public Act 13-191](#).

EXAMPLE: John and Jane Doe have a joint bank account. Jane signs a \$1,000 contribution check to a political committee. On a contribution cards signed by John and Jane, they indicate they would like \$250 of the contribution to be from her and \$750 of the contribution to be from John. The committee should report a \$250 contribution from Jane and a \$750 contribution from John in Section B of the [SEEC Form 20](#).

[General Statutes § [9-606\(b\)](#) (as amended by [P.A. 13-191](#))]

A monetary receipt in the form of a money order is considered to be "cash" and should be reported as such. There is a limit of \$100 of aggregated contributions made by cash or money order per individual per calendar year.

[General Statutes § [9-611\(d\)](#)]

b. Loans

All loans are reported in Section D, "Loans Received this Period," of [SEEC Form 20](#), regardless of whether they are considered contributions. The treasurer must report the name and address of any bank or other lender which has made a loan to the committee, the principal amount of the loan received in the reporting period, along with the name and address of any person who is a guarantor or cosigner of the loan. Outstanding loan balances must be continuously reported as a debt, on the "Summary Page Totals" of [SEEC Form 20](#).

[General Statutes § [9-608\(c\)\(1\)\(E\)](#)]

c. Contributions from Other Committees

Any monetary receipt from another committee must be reported as either a contribution, and disclosed in Section C1, "Contributions from Other Committees," or as a reimbursement, payment, or surplus distribution from the committee that is not a

contribution in Section C2, "Reimbursements, Payments, or Surplus Distributions from Other Committees" (see applicable limitations in [Chapter IV. Raising Funds for Your Committee](#)). Any non-monetary contribution received from another committee must be disclosed in Section M, "In-Kind Contributions."

d. Monetary Receipts not Considered Contributions

All other monetary receipts that are not contributions must be disclosed (although certain receipts need not be itemized, as discussed above). Examples include interest posted or received from deposits in authorized investment accounts (reported as "Interest from Deposits in Authorized Accounts," Section J); bank credits or refunds (reported as "Miscellaneous Monetary Receipts not Considered Contributions," Section K); and certain other monetary receipts from fundraisers in Section L1 of [SEEC Form 20](#).

e. Transfer of Funds from Affiliated Business Entity

For a political committee established by a business entity, the amount and date of funds transferred from the business entity treasury to pay for certain expenses (see [Chapter IV. Raising Funds for Your Committee](#) for more information), must be reported in Section F, "Amount Transferred from Affiliated Business Treasury."

f. Transfer of Funds from Affiliated Organization

For a political committee which has elected to be funded exclusively from the treasury of its affiliated organization (see [Chapter IV. Raising Funds for Your Committee](#) for more information), the amount and date of funds transferred from the organization's treasury must be reported in Section G, "Amount Transferred from Parent Organization."

2. Reporting Fundraising Events

The treasurer is required to disclose all receipts of a fundraiser whether or not such receipt constitutes a contribution to the committee. Each fundraising affair, including the date, location, and a description, is required to be reported in Section L1 "Fundraiser Event Information" of Part II of [SEEC Form 20](#). All monetary receipts received at the given event which are contributions may be recorded as an aggregate amount in Section A of Part I of [SEEC Form 20](#) if the contributor has contributed \$50 or less in the aggregate during the calendar year (or since inception in the case of a political committee established for a single primary, election, or referendum). If the contributor's total contributions given to the committee exceed \$50 for the calendar year (or since inception, in the case of a political committee established for a single primary, election, or referendum), the contributor must be itemized in Section B of Part I. The treasurer must identify the corresponding fundraising event at which the given contribution was received in Section B as well. The purchase of fundraising tickets are considered contributions, and therefore must be reported in the appropriate section, dependent upon the amount purchased by the contributor and the aggregate amount of other contributions by the same contributor.

Each non-monetary receipt received at the event which is a contribution must be itemized as an in-kind contribution in Section M of [SEEC Form 20](#). Again, the treasurer must identify the fundraising event reported in L1 at which the given in-kind contribution was received.

The donations received in connection with a fundraising affair that do not constitute contributions must be disclosed in Section L4, "In-Kind Donations Not Considered

Contributions,” of Part II of [SEEC Form 20](#). Such itemizations must include the name and address of each such donor and the corresponding amount.

The treasurer must also separately itemize each expenditure made by the committee in connection with the fundraising affair in the same manner as any other committee expenditure in Section IV “Expenditures” of the [SEEC Form 20](#).

[General Statutes § [9-608\(c\)\(1\) and \(4\)](#)]

3. Reporting Expenditures

Expenditures are reported in Section P, “Expenses Paid by Committee,” of the [SEEC Form 20](#). Each expenditure, regardless of the amount, must be separately itemized with the following information:

- Payee’s full name and address;
- Amount, date, description, and method of payment;
- Expenditure Code identifying the purpose of the expenditure (*Expenditure Codes are listed in the [SEEC Form 20 instructions](#)*); and
- If applicable, candidate supported or opposed by the expenditure, whether the expenditure is made independently of the candidate or is a coordinated or organization expenditure, and whether reimbursement is claimed from the political committee.

a. In-Kind Contributions to Other Committees

Each treasurer of a political committee which makes an in-kind contribution of goods or items to another committee is required to send written notice to the recipient committee’s treasurer before the close of the recipient committee’s next financial disclosure statement covering the period in which the in-kind contribution was received. The treasurer of the political committee is required to sign the valuation notice, which must include the full name of the committee, the date on which the in-kind contribution of goods was made, along with a complete description of the item and its value. While a written valuation notice is not similarly required for donated “services” (e.g., paid campaign staff which is loaned to the other committee), the recipient committee’s treasurer is nevertheless required to make due inquiry of the donor committee as to the value of the in-kind services loaned and report the same in its next financial disclosure statement, covering the period of loaned services, as an in-kind contribution.

[General Statutes § [9-606\(a\)](#)]

Important Note: Candidate committees participating in the CEP may *not* accept in-kind contributions.

b. Organization Expenditures

Each statement filed by the treasurer of a legislative leadership or legislative caucus committee shall include an itemized accounting of each organization expenditure made by the committee for the benefit of a General Assembly candidate. Organization expenditures must be reported in Section P, “Expenses Paid by Committee,” of [SEEC Form 20](#), checking off the appropriate type of organization

expenditure and providing an itemized accounting for each benefiting candidate in the Addendum to Section P.

Where the benefiting candidate is running for General Assembly or statewide office, the legislative leadership or caucus committee treasurer must also, at the time of reporting the organization expenditure on its statement, provide notice of the organization expenditure to the candidate committee of such candidate or candidates.

The Commission will post on its website a list of all organization expenditures reported by legislative leadership or legislative caucus committees that benefit a General Assembly or statewide office candidate, including the name of the committee receiving the benefit of the expenditure and the date and purpose of the expenditure.

[General Statutes §§ [9-601\(25\)](#), [9-608\(c\)\(5\)](#) and [\(6\)](#)]

c. Expenses Incurred but Not Paid

The obligation to report expenses incurred arises when the committee enters into a written contract, promise or agreement to make an expenditure. For example, if a political committee purchases mailers that it distributes in June but is not billed for them until August, the committee would report the mailers as an expense incurred but not paid on its July 10th filing.

Each expense incurred but not yet paid must be separately itemized in the same manner as expenditures paid, including the disclosure of any secondary payees. Expenses incurred but not paid are reported in Section S, "Expenses Incurred by Committee but Not Paid During this Period" of the [SEEC Form 20](#).

If a committee incurs an expense but will not know the actual cost until it receives an invoice at a later date, it should still report the expenditure incurred in Section S in the period in which it was incurred and provide a good faith **estimate** of the amount.

The treasurer must then report the expense incurred on Line 28, Column A, of the Summary Page Totals on page 2 of the [SEEC Form 20](#). Once the expense is paid off, the treasurer must subtract the corresponding amount from the total reported on Line 28A.

[General Statutes §§ [9-601b\(c\)](#), [9-606\(a\)](#), [9-608\(c\)\(1\)](#)]

d. Loan Repayments

Loan repayments are reported in Section P, "Expenses Paid by Committee." The name and address of each bank or other lender, the amount and date of the repayment or partial repayment (principal plus interest) on the loan during the applicable reporting period must be reported. When reporting a loan repayment, use "LOAN" as the Expenditure Code.

[General Statutes § [9-608\(c\)\(1\)](#)]

e. Expenditures Coordinated with Other Committees

Political committees must report expenditures made in coordination with other committees in Section P, "Expenses Paid by Committee," checking off the appropriate type of coordinated expenditure and indicating the name or names of the candidates supported in the case of a candidate committee. Where the political committee does not seek reimbursement, it will indicate so in the entry and the recipient committee will report the expenditure as an in-kind contribution on its financial disclosure statement.

The political committee may choose to seek reimbursement for any expenditure it has made for the benefit of another committee (unless the committee is that of a candidate participating in the CEP that has received a public grant), provided notice of a description of the expenditure and the amount of reimbursement being sought is given to the other committee's treasurer by the close of that committee's reporting period in which the political committee's expenditure was made. In completing Section P, the political committee will indicate that the expense was coordinated with reimbursement sought. The political committee will then report the payment from that committee as a reimbursement from another committee in Section C2, "Reimbursements, Payments, or Surplus Distributions from other Committees," of [SEEC Form 20](#). The other committee will not report this as an in-kind contribution; it will report its reimbursement as an expenditure to the political committee.

[General Statutes § [9-601c](#)]

f. Independent Expenditures

Important Note: Recent changes in the law have substantially altered the disclosure scheme for political committees making or obligating to make independent expenditures. As a result, the Commission and its staff are in the process of issuing additional guidance, in the form of declaratory rulings, advisory opinions, and other publications. Accordingly, a political committee intending to engage or engaging in independent expenditures should periodically check the Commission's website for additional information. Also, compliance staff is available via telephone to help answer questions.

Any political committee which makes or obligates to make an independent expenditure intended to promote the success or defeat of a candidate must report the same at the first dollar on its campaign finance disclosure statement. Such expenditures are reported in Section P, "Expenses Paid by Committee," checking off "Independent" as the appropriate type of expenditure and indicating the name or names of the candidate(s) supported or opposed. For an independent expenditure intended to promote the success or defeat of a municipal or Judge of probate candidate, as well as an independent expenditure intended to promote the success or defeat of a statewide office or General Assembly candidate that is \$1,000 or less in the aggregate or that exceeds \$1,000 in the aggregate but is not made during a primary or general election campaign (as more fully explained below), the political committee may report the expenditure on its next filing (e.g., the filing which covers the period in which the independent expenditure was made or obligated to be made).

If, however, the political committee makes or obligates to make an independent expenditure in excess of \$1,000 in the aggregate which intends to promote the success or defeat of a statewide office or General Assembly candidate during a primary or general election campaign, as defined in General Statutes § 9-700, the treasurer must file an independent expenditure report using the [SEEC Form 20](#) and disclose the expenditure not later than **24 hours** after the expenditure is made or obligated. The "primary campaign" begins on the day following the close of (A) a convention held for the purpose of endorsing a candidate for nomination to statewide office or the district office of state senator or state representative, or (B) a caucus, convention or town committee meeting held for the purpose of endorsing a candidate for the municipal

office of state senator or state representative, whichever is applicable, and ending on the day of a primary held for the purpose of nominating a candidate for such office. The “general election campaign” is defined as the period either beginning on the day following the primary and ending on the date the committee terminates or in the case of a candidate nominated without a primary, the period beginning on the day following the day on which the candidate is nominated and ending on the date the committee terminates.

Important Note (2013 Law Change): Under prior law, a political committee making or obligating to make an independent expenditure for a statewide office or General Assembly candidate in excess of \$1,000 in the aggregate was required to report within 48 hours of making or obligating the expenditure if it occurred more than 90 days before the primary or election, or within 24 hours if it was made 90 days or less before the primary or election. Under the new law, political committees report independent expenditures on their regular filings from the outset of the election cycle through the convention and must then report such expenditures within 24 hours after the convention through the election. See [Public Act 13-180](#).

If a political committee fails to file a required report for an independent expenditure made or obligated to be made more than 90 days before the day of a primary or election, the treasurer shall be subject to a civil penalty of up to \$5,000. If a treasurer fails to file a required report for an independent expenditure made or obligated to be made 90 or less days before the day of a primary or election, the treasurer shall be subject to a civil penalty of up to \$10,000. If any such failure to file is knowing and willful, the treasurer shall be liable for fines up to \$5,000 and potential imprisonment of up to five years or both.

[General Statutes § [9-700](#); [P.A. 13-180](#) (section 8)]

Important Note: All Independent Expenditure reports by political committees are filed with the filing repository where they are registered and normally file their financial disclosure statements.

g. Reimbursements to Committee Workers

Each expenditure that is a reimbursement to a committee worker must be treated as any other expenditure but must also include an itemization of any payments to secondary payees (e.g. the vendors who transacted with the committee worker). Such reimbursements are reported in Section P, “Expenses Paid by Committee,” using “RCW” as the Expenditure Code. In a separate section of [SEEC Form 20](#), Section T, “Itemization of Reimbursements to Committee Workers and Consultants,” the treasurer must itemize the expenditure for which the worker was reimbursed. This section will not affect the balance on hand and need not be carried forward to the “Summary Page Totals.”

[General Statutes §§ [9-607\(j\)](#), [9-608\(c\)\(1\)](#)]

h. Payments to Consultants

If a consultant is paid by the committee to provide services, the committee treasurer must report the payment in Section P, “Expenses Paid by Committee.” If the consultant pays other vendors (secondary payees) for committee-related expenses, then the

committee's payment to the consultant to cover such expenses must also be reported in a separate section of [SEEC Form 20](#), Section T, "Itemization of Reimbursements to Committee Workers and Consultants." Secondary payees are those vendors who received a payment from the consultant for goods or services purchased by the consultant for which the committee has paid the consultant.

[General Statutes §§ [9-607\(j\)](#), [9-608\(c\)](#); [Regulations of Conn. State Agencies § 9-607-1](#)]

E. When to File

The treasurer of a **political committee** must file a financial disclosure statement with the appropriate filing repository by the following deadline dates:

- For a newly formed committee, with its registration statement if it received its first contribution or disbursement at or before the time of registration, or, if it has not, within 48 hours of such initial receipt
- The 10th day of January, April, July and October
- The 7th day prior to a regular November state election (even years) (all political committees must file this statement, regardless of whether they have raised or spent funds in connection with the election)
- The 7th day prior to each municipal election, whether in May or November, if the committee has received or expended funds in connection with the election (odd years)
- The 7th day prior to any primary if the committee has received or expended funds in connection with the primary
- The 7th day prior to any referendum if the committee has received or expended funds in connection with the referendum
- The 7th day prior to any special election if the committee has received or expended funds in connection with the special election
- The 7th day of April in the case of a political committee formed for a single election or referendum falling on the general election date
- The 45th day after any election not held in November in the case of a political committee formed for a single primary, election or referendum not held in November
- The 97th day after any election not held in November in the case of a political committee formed for a single primary, election or referendum not held in November
- Within 24 hours of an independent expenditure or independent expenditures exceeding \$1,000 in the aggregate which promotes the success or defeat of a statewide office or General Assembly candidate and which the political committee has made or has obligated to be made during a primary campaign or general election campaign

If such **deadline date** falls on a Saturday, Sunday or legal holiday, the financial disclosure statement shall be filed on the next business day, ***with the exception of an independent expenditure report concerning a statewide office or General Assembly***

candidate, which must still be filed within 24 hours of the expenditure, as the case may be, even if the deadline falls on a weekend or holiday. Filings must be submitted at some time during the filing period, which begins the day after the conclusion of the reporting period and ends on the filing deadline date. A more specific calendar, with the actual filing dates and reporting periods, is available on the State Elections Enforcement Commission's [website](#) and from any town clerk's office.

The **reporting period** for each disclosure statement filed by a political committee on the 10th day of January, April, July and October must include the financial activity of the committee beginning the first day not included on the last filed financial disclosure statement and ending on the last day of the month preceding the month in which the statement is required to be filed. Each disclosure statement filed on the 7th day preceding an election, primary, or referendum, however, must include the financial activity of the committee beginning the first day not included on the last filed financial disclosure statement and ending as of **two** days immediately preceding the required filing deadline day.

If the committee's filing repository is the **State Elections Enforcement Commission**, then statements are considered **timely** filed if they are filed electronically via eCRIS before 11:59 p.m. on or before the filing deadline date or if they are **received by** the Commission's offices by 5:00 p.m. on or before the filing deadline date if delivered by the United States Postal Service, courier service, parcel service or hand delivery.

Important Note: Effective January 1, 2012, for political committees registered with the Commission, filings sent by mail are no longer considered timely if postmarked by the filing deadline date – **they must actually be received by the Commission's offices by 5:00 p.m. on the filing deadline date in order to be deemed timely.** Committees seeking confirmation of receipt should check their committee's filing status on [eCRIS search](#).

If the committee's filing repository is the **town clerk**, then statements are considered **timely** filed if they are either postmarked by the United States Postal Service before midnight on or before the required filing deadline date or delivered by hand to the town clerk by 4:30 p.m. on or before the required filing deadline date. Please note that town clerks are not equipped to accept electronically filed statements.

Important Note: Some town clerk's offices may not have office hours or may have shortened office hours on a filing deadline day. This does not relieve the treasurer of filing by the deadline, so be sure to confirm the office hours of the Town Clerk if delivery by hand is anticipated.

[General Statutes §§ [1-2a](#), [9-605\(b\)](#), [9-608\(a\)](#), [\(d\)](#), and [\(e\)](#); [P.A. 13-180](#) (section 8)]

F. Late Filing Fees

Failure to file the financial disclosure statement by the applicable deadline date subjects the treasurer to an **automatic and non-discretionary \$100 late filing fee**, which is the personal responsibility of the treasurer and is **not** a legitimate expenditure of the committee. Late filing fees are payable to the Treasurer, State of Connecticut, and mailed to the State Elections Enforcement Commission, Campaign Disclosure Unit, if the

Commission is the committee's filing repository. If the committee is registered at the municipal level only, the town clerk is the proper filing repository and late filing fees are payable to the town clerk. This fine is **mandatory** regardless of the reason for the late filing.

In addition, a treasurer's failure to submit these filings within seven days after receiving a failure to file notice from the town clerk by certified mail, return receipt requested, and/or within 21 days after notice from the State Elections Enforcement Commission, will constitute a violation of General Statutes § [9-608](#) and will subject the treasurer to an additional civil penalty between \$200 and \$2,000. These additional fines and penalties are enforced by the State Elections Enforcement Commission, and the town clerk is required to refer such failures to the Commission in a timely fashion after the seven day late period expires.

[General Statutes § [9-623](#)]

G. Copies of Disclosure Statements

The treasurer must provide the committee chairperson with a duplicate copy of the financial disclosure statement at the time of filing.

[General Statutes § [9-608\(d\)](#)]

The registration and financial disclosure statements filed on behalf of political committees are available for public inspection at the applicable filing repository. These statements are required to be kept by the filing repository for five years from the date of filing.

[General Statutes § [9-608\(c\)\(7\)](#)]

VIII. Terminating a Political Committee

A. Political Committees Established for a Single Primary or Election

A political committee established for a single primary or election must distribute its surplus within ninety days of the primary or election for which it was established if not held in November or by March 31 of the following year if the election for which it was established was held in November.

The committee must distribute its surplus to one or more of the following:

- A party committee;
- An ongoing political committee;
- All contributors to the committee on a prorated basis of contribution;
- The Citizens' Election Fund; or
- A tax-exempt, tax-deductible organization under Section 501(c)(3) of the Internal Revenue Code.

If the political committee was established by an organization which received its funds from the organization's treasury, then it must return its entire surplus to the organization.

The committee must terminate by filing a [campaign disclosure report](#) (checking off "Termination" as the type of report on the cover page) within **seven days** of distributing its surplus. In the case of a committee established for a November election, the termination must occur by April 7 of the following year.

In the event of a **deficit**, the committee treasurer must file a supplemental statement (checking off "Deficit" as the type of report) ninety days after the election or primary for which it was established if not held in November or on the seventh day of February (or the next business day if such day is a Saturday, Sunday, or legal holiday) if the election for which it was established was held in November. Thereafter, the treasurer must file on the seventh day of each month following if on the last day of the previous month there was an increase or decrease in the deficit of more than \$500 from that reported on the last statement filed. Such supplemental statements must continue to be filed until the deficit is eliminated. A political committee established for a single primary or election may raise funds after the primary or election only to eliminate a deficit.

[General Statutes § [9-608\(e\)](#)]

Important Note: The surplus distribution options for a political committee formed for a single **referendum** are different. Moreover, such a committee is not required to expend its surplus within ninety days of the referendum if a substantially similar referendum question on the same issue will be submitted to the electorate within six months of the referendum. Rather, the committee may stay in existence for one or more substantially similar referenda and must expend its surplus within ninety days following the date of the last related referendum. Please see the Commission's [A Guide to Financing a Referendum Question](#), available on its website, for more information on referendum committees and the applicable surplus distribution rules.

B. Ongoing Political Committees

An ongoing political committee may terminate after it has spent down its committee funds. This can be accomplished by making permissible expenditures or contributions, as outlined in [Chapter VI. Spending Committee Funds](#), with the remaining balance. An ongoing political committee may not terminate if it has a deficit. Once the balance has reached zero, the committee accomplishes termination by filing a [SEEC Form 20](#), checking off "Termination" as the type of report on the cover page and reporting both a zero balance and the final expenditures made the committee.

Important Note: An ongoing political committee cannot distribute its balance in the same manner as a political committee established for a single primary or election can distribute its surplus. Rather, an ongoing political committee must spend down its balance by making permissible expenditures and/or contributions.

[General Statutes §§ [9-607\(g\)](#), [9-608\(e\)](#)]

IX. Complaints

A. Who May Bring a Complaint

Any individual may bring a complaint to the State Elections Enforcement Commission requesting that an investigation be made into any alleged violation of the state election or campaign finance laws. The State Elections Enforcement Commission may, on its own initiative, also decide to conduct an investigation on any possible violation of the state election or campaign finance laws.

[General Statutes § [9-7b\(1\)](#)]

B. Form of Complaint

All complaints filed with the Commission must be in writing and sworn to under oath by the complainant. A [complaint form](#) is available at the Commission's offices and on its website (www.ct.gov/seec) and may be used to file complaints. A complaint may also be filed in letter form provided that it is sworn to under oath. Complaints must be submitted with an original signature of the complainant. No copies or facsimiles will be accepted.

Complaints should include the following:

- The legal name, address and telephone number of the person filing the complaint.
- A clear and concise statement of the facts including:
 - The date of the alleged violation(s);
 - The identity of the person(s) alleged to have committed the violation(s);
 - The identity of any person(s) who may have knowledge of the facts asserted in the complaint; and
- Any other document, written material or other information known to the complainant and having a bearing on the violation(s) alleged in the complaint.

Complaints should be mailed to:

State Elections Enforcement Commission
Attn: Enforcement Unit
Office of Governmental Accountability
20 Trinity Street – 1st Floor
Hartford, CT 06106

C. General Criminal and Civil Penalties

Any person who violates any provision of Connecticut's campaign finance laws is subject to a civil penalty not to exceed \$2,000 or twice the amount of the improper contribution or payment, whichever is greater.

[General Statutes § [9-7b\(a\)\(2\)](#)]

Important Note (2013 Law Change): The new law provides that any person who knowingly and willingly violates the campaign finance laws shall be guilty of up to a Class D felony.

[General Statutes § [9-623\(a\)](#) (as amended by [P.A. 13-180](#))]

X. Conclusion

This Guide is intended to clarify and summarize the most important provisions relating to Connecticut's campaign financing requirements relevant to political committees.

XI. Glossary

Agent: A person authorized to act for or in place of another. See General Statutes § [9-601\(18\)](#) (defining “agent”).

Anonymous Contribution: A contribution for which the treasurer has no information about the identity of the contributor. Treasurers may not deposit anonymous contributions, of any amount, but must immediately forward them in full to the State Elections Enforcement Commission for deposit in the General Fund of the State of Connecticut. See General Statutes § [9-606\(b\)](#).

Bundle: The forwarding of five or more contributions to a single committee by a communicator lobbyist, an agent of such lobbyist, or a member of the immediate family of such lobbyist, or raising contributions for a committee at a fundraising affair held by, sponsored by, or hosted by a communicator lobbyist or an agent or immediate family member of such lobbyist. See General Statutes § [9-601\(27\)](#) (defining “bundle”).

Business Entity: Any stock corporation, bank, insurance company, limited liability company, business association, bankers association, insurance association, trade or professional association receiving funds from membership dues and other sources, partnership, joint venture, private foundation, trust or estate, cooperative or other association, and any similar organization or entity which is engaged in the operation of a business or profit-making activity. A non-profit entity would **not** satisfy the definition of “business entity.” A solely owned professional service corporation (P.C.) or a sole proprietorship is considered an individual and not a business entity. See General Statutes §§ [9-601\(8\)](#) (defining “business entity”), [9-601\(9\)](#) (defining “individual”).

Candidate: An individual seeking nomination or election to public office, who has solicited or expended funds to bring about that election or nomination, other than for a party committee, who can appear on the ballot having received the endorsement or nomination of a political party, or who has satisfied the requirements to appear on the ballot (e.g. “petitioning candidate”). See General Statutes §§ [9-601\(11\)](#) (defining “candidate”), [9-400](#) (designating means for filling state or district candidacies), [9-406](#) (establishing process for circulating nominating petitions). Persons who have formed exploratory committees are considered candidates.

Candidate Committee: A committee established by a single candidate to promote only that candidate’s nomination or election to a *specific* office. See General Statutes § [9-601\(4\)](#) (defining “candidate committee”). A candidate may establish only one candidate committee for a particular office to be sought.

Citizens’ Election Program: The publicly-funded, campaign financing program created in Connecticut, which provides campaign grants to qualifying major party, minor party, and petitioning candidates seeking election to statewide office or General Assembly. See General Statutes § [9-702\(a\)](#).

Client Lobbyist: A lobbyist on behalf of whom lobbying takes place and who makes expenditures for lobbying and in furtherance of lobbying. See General Statutes §§ [1-91\(u\)](#) (defining “client lobbyist”), [9-601\(16\)](#) (drawing on § [1-91](#) to define “client lobbyist” for purposes of campaign finance laws). Client lobbyists are to be distinguished from “communicator lobbyists” who are the ones who are paid to do the communicating on the client lobbyist’s behalf. See also **Communicator Lobbyist and Lobbyist**. For more information on who is a client lobbyist or who is a communicator lobbyist, please contact the Office of State Ethics at 860-263-2400 or visit their [website](#).

Committee Chairperson: The individual who has signed the committee’s registration statement as the designated chairperson. The chairperson is responsible for appointing and designating the treasurer and deputy treasurer(s) of the committee on the committee’s registration statement, along with the other required information. See General Statutes § [9-602\(a\)](#).

Committee Treasurer: See [Treasurer](#).

Communicator Lobbyist: A lobbyist who communicates directly or solicits others to communicate with an official or his staff in the legislative or executive branch of government or in a quasi-public agency for the purpose of influencing legislative or administrative action. See General Statutes §§ [1-91\(v\)](#) (defining “communicator lobbyist”), [9-601\(16\)](#) (drawing on § [1-91](#) to define “communicator lobbyist” for purposes of campaign finance laws). Communicator lobbyists are to be distinguished from “client lobbyists” who are the clients that hire the communicator lobbyists. See also **Client Lobbyist and Lobbyist**. For more information on who is a client lobbyist or who is a communicator lobbyist, please contact the Office of State Ethics at 860-263-2400 or visit their [website](#).

Contribution: Any gift, subscription, loan, advance, payment or deposit of money or anything of value, made to promote the success or defeat of any candidate seeking the nomination for election, or election or for the purpose of aiding or promoting the success or defeat of any referendum question or the success or defeat of any political party. The campaign treasurer must report all contributions, both monetary and non-monetary (or “in-kind”), that the committee has received. See General Statutes § [9-601a](#) (offering broad definition for “contribution” as well as specific exceptions).

Depository Institution: Under Connecticut’s campaign finance laws, a political committee must establish a single checking account at a financial institution located in Connecticut from which it will make all expenditures and deposit all monetary receipts. See General Statutes §§ [9-602\(a\)](#) (directing treasurer of committee to designate single depository institution for committee’s funds), [9-607\(e\)](#) (directing that majority of payments must be made by check, debit card, or credit card); [Advisory Opinion 1975-6](#) (directing that all expenditures must emanate from checking account).

Deputy Treasurer: A “back-up” treasurer who steps in as treasurer if the treasurer is unable to perform his or her duties for any reason. See General Statutes § [9-601\(13\)](#) (as amended by [P.A. 13-180](#)) (defining “deputy treasurer”).

Entity: An organization, corporation, whether for-profit or not-for-profit, cooperative association, limited partnership, professional association, limited liability company, or limited liability partnership, whether organized in Connecticut or any other state. “Entity” includes any tax-exempt organization under Section 501(c) of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as amended from time to time, and any tax-exempt political organization organized under Section 527 of said code. See General Statutes § [9-601\(18\)](#) (as amended by [P.A. 13-180](#)) (defining “entity”).

Expenditure: Any outlay or disbursement of funds or anything of value when made to promote the success or defeat of any candidate seeking election or nomination of any person, to promote the success or defeat of a referendum question, or to promote the success or defeat of a political party. See General Statutes § [9-601b](#) (establishing meaning of “expenditure” for campaign finance purposes, and exceptions to that definition).

Exploratory Committee: A political committee that a candidate establishes to raise funds and gauge support for his or her candidacy while deciding whether to seek a particular public office. See General Statutes § [9-601\(5\)](#) (defining “exploratory committee”).

Individual: A human being, a sole proprietorship, or a professional service corporation organized under Chapter 594a of the Connecticut General Statutes and owned by a single human being. See General Statutes § [9-601\(9\)](#) (defining “individual” for purposes of Connecticut’s campaign finance laws).

In-Kind Contributions: Donation of goods, services, or anything of value (other than cash, checks, or other negotiable instruments) that the recipient committee or candidate receives free of charge or at less than the usual charge.

Investment Services Firm: A firm conducting investment legal services, investment banking services, investment advisory services, underwriting services, financial advisory services or brokerage firm services. See General Statutes § [9-612](#).

Lobbyist: Generally defined as a person who, in lobbying and in furtherance of lobbying, makes or agrees to make expenditures, or receives or agrees to receive compensation, reimbursement, or both, and such compensation, reimbursement or expenditures are \$2,000 or more in any calendar year or the combined amount thereof is \$2,000 or more in any such calendar year. See General Statutes §§ [1-91\(l\)](#) (defining “lobbyist”), [9-601\(16\)](#) (drawing on § [1-91](#) to define “lobbyist” for purposes of campaign finance laws). The term lobbyist includes both communicator lobbyists and client lobbyists. See *also* **Client Lobbyist** and **Communicator Lobbyist**. For more information

on who is a client lobbyist or who is a communicator lobbyist, please contact the Office of State Ethics at 860-263-2400 or visit their [website](#).

Organization: All labor organizations, employee organizations, bargaining representative organizations for teachers, local, state or national organizations to which any labor organization pays fees or membership dues, as well as any trade or professional association receiving its funds exclusively from membership dues. See General Statutes § [9-601\(7\)](#) (defining “organization”).

Organization Expenditure: Certain expenses made by legislative leadership committees, legislative caucus committees, or party committees that benefit candidates but are exempted from the definition of “contribution” and “expenditure.” These expenses can only be made for specific publications, advertisements, events, services, and office expenses outlined in General Statutes § [9-601\(25\)](#) (defining “organization expenditures”).

Party Committee: A committee established by a political party, including a local town committee or state central committee, excluding party-affiliated district, ward, or borough committees, which are considered “political committees.” See General Statutes § [9-601\(2\)](#) (defining “party committee”).

Person: An individual, committee, firm, partnership, organization, association, syndicate, company trust, corporation, limited liability company or any other legal entity of any kind but does not mean the state or any political or administrative subdivision of the state. See General Statutes § [9-601\(10\)](#) (defining “person”).

Political Committee: A committee established by a business, organization, group of individuals, an exploratory candidate, or a slate of municipal candidates to promote the election or nomination of candidates for public office or to advocate for or against a referendum issue. Political committees may also be established by legislative leadership or legislative caucuses. See General Statutes § [9-601\(3\)](#) (defining “political committee”).

Political Slate Committee: A political committee formed by two or more candidates for nomination or election to any municipal office in the same town, city or borough, or in a primary for the office of justice of the peace or the position of town committee member, whenever such political committee will serve as the sole funding vehicle for the candidates’ campaigns. See General Statutes § [9-601\(28\)](#) (defining “slate committee”).

Principal of an Investment Services Firm: For purposes of the contribution and solicitation ban by such principals to or for an exploratory committee or candidate committee for nomination or election to the office of State Treasurer, such individuals are identified as follows: (1) directors; (2) owners of at least 5% of the shares of the firm; (3) president, treasurer, and executive vice president; (4) any individual who is an employee of an investment services firm who has managerial or discretionary responsibilities with respect to investment services provided to the State Treasurer; (5)

the spouse and dependent children eighteen years or older of all of the above individuals; and (6) any political committee established or controlled by the investment services firm or by any of the above individuals. See General Statutes § [9-612](#).

Principal of a State Contractor, Prospective State Contractor: For purposes of the contribution and solicitation provisions, such individuals are identified as follows:

For business entities (including all types of businesses, regardless of its form of organization): (1) directors; (2) owners of at least 5% of business; (3) president, treasurer, executive vice president; (4) managerial or discretionary employees (those employees having direct, extensive and substantive responsibilities with respect to the negotiation of the state contract); (5) the spouse and dependent children eighteen years or older of all of the above individuals; (6) any political committee established or controlled by the business entity or by any of the above individuals.

For non-profit organizations (all types of non-profits, regardless of tax exempt status): (1) chief executive officer or, if none, officer with comparable duties; (2) managerial or discretionary employees (those employees having direct, extensive and substantive responsibilities with respect to the negotiation of the state contract); (3) the spouse and dependent children eighteen years or older of all of the above individuals; (4) any political committee established or controlled by the nonprofit organization or by any of the above individuals.

Note that the same definitions of the term principal apply to subcontractors for purposes of the subcontractor solicitation ban.

See General Statutes § [9-612](#).

Prospective State Contractor: For purposes of the contribution and solicitation provisions, prospective state contractors include any person, business entity, or nonprofit organization that submits a bid or proposal on a state contract or request or that holds a prequalification certificate issued by the Commissioner of Administrative Services. See General Statutes § [9-612](#).

Referendum Question: A question to be voted upon at any election or referendum, including a proposed amendment to the Connecticut Constitution. See General Statutes § [9-601\(15\)](#) (defining “referendum question”).

Solicitor: An individual, including a candidate, appointed by a treasurer to receive funds on behalf of a committee organized under the auspices of [Chapter 155](#). See General Statutes § [9-601\(14\)](#) (defining “solicitor”).

State Contract: An agreement or contract with the state, any state agency or quasi-public agency, obtained through a procurement process or otherwise valued at \$50,000 or more for a single contract, or \$100,000 or more for a series of contracts in a calendar year. The contract must be for (1) the rendition of services; (2) the furnishing of any goods, material, supplies, equipment or any item of any kind; (3) the construction, alteration, or repair of any public building or public work; (4) the acquisition, sale or lease of any land or building; (5) a licensing arrangement; or (6) a grant, loan, or loan guarantee. “State contract” does not include any agreement or contract with the

state, any state agency or any quasi-public agency that is exclusively federally funded, an education loan, a loan to an individual for other than commercial purposes or any agreement or contract between the state or any state agency and the United States Department of the Navy or the United States Department of Defense. See General Statutes § [9-612](#).

State Contractors: State contractors include any person, business entity, or nonprofit organization that enters into a state contract. "State contractor" does not include a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee. See General Statutes § [9-612](#).

Slate Committee: See **Political Slate Committee**.

Statewide Office: Statewide office includes the offices of Governor, Lieutenant Governor, Secretary of the State, State Treasurer, State Comptroller, and Attorney General.

Subcontractor: Any person, business entity or nonprofit organization that contracts to perform part or all of the obligations of a state contractor's state contract. Such person, business entity or nonprofit organization is deemed to be a subcontractor until December 31 of the year in which the subcontract terminates. "Subcontractor" does not include (1) a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or (2) an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee. See General Statutes § [9-612](#).

Town Committee: A type of party committee affiliated at the municipal level.

Treasurer: A Connecticut elector (registered voter) appointed to serve as treasurer for a candidate committee; for a political committee, including exploratory, political slate, and referendum committees; or for a party committee. Only the committee's properly designated treasurer may deposit funds into, or expend funds from, the committee's depository account. See General Statutes §§ [9-601\(12\)](#) (as amended by [P.A. 13-180](#)) (defining "treasurer"), [9-606\(d\)](#) (requiring treasurers to be Connecticut electors), [9-608](#) (outlining requirements for statements that treasurers file on behalf of candidate, party, or political committees).

*No candidate participating in the Citizens' Election Program may accept a contribution from any political committee.		

- ¹ Contribution limits to candidate committees apply separately to primaries and elections. Contributions received on or before day of primary are counted toward primary; contributions received after primary are counted toward election. Candidate must compete in primary for separate primary limit to apply and in election for separate election limit to apply.
- ² Candidates in a primary for town committee member are not subject to contribution limits or restrictions set forth in Sections 9-611 to 9-620 of the Connecticut General Statutes, unless they have designated a town committee as their sole funding source (in which case, the contribution limits to a town committee apply).
- ³ Business entities, trade and professional associations, labor unions and other organizations may contribute to a referendum campaign up to 10 cents per individual residing in the state or political subdivision in which such referendum question is to be voted upon.
- ⁴ Limitations are subject to federal law.
- ⁵ Reduced limit applies to any exploratory committee of a candidate who is considering the offices of Governor, Lt. Governor, Secretary of the State, Comptroller, Treasurer, Attorney General, State Senator and/or State Representative. For other offices, \$375 limitation applies.
- ⁶ Reduced limit applies to political committee established or controlled by any candidates for Governor, Lt. Governor, Secretary of the State, Treasurer, Comptroller, Attorney General, State Senator or Representative; otherwise, the limit is \$2,000/year.
- ⁷ Prohibition applies if contract, bid or proposal is with executive branch agency and meets financial threshold and the recipient political committee is authorized to contribute to executive branch candidates. If contract, bid or proposal is with legislative branch, then principal (political committee) may contribute to candidate or exploratory committee of a candidate for executive branch office, or political committee authorized to contribute to such candidates subject to the same limits as any other political committee (\$375 for exploratory committee; \$2,000 for political committee).
- ⁸ Prohibition applies if contract, bid or proposal is with legislative branch agency and meets financial threshold and the recipient political committee is authorized to contribute to General Assembly candidates. If contract, bid or proposal is with executive branch agency or quasi-public agency, then principal (political committee) may contribute to candidate or exploratory committee of a candidate for the General Assembly or political committee authorized to contribute to such candidates, subject to the same limits as any other political committee (\$375 for exploratory committee; \$2,000 for political committee).

PUBLIC ACT 13-180, SECTION 4

Public Act 13-180, section 4: Section 9-601c of the general statutes is repealed and the following is substituted in lieu thereof (*Effective from passage*):

(a) As used in this chapter and chapter 157, the term "independent expenditure" means an expenditure, as defined in section 9-601b, as amended by this act, that is made without the consent, coordination, or consultation of, a candidate or agent of the candidate, candidate committee, political committee or party committee.

(b) When the State Elections Enforcement Commission evaluates an expenditure to determine whether such expenditure is an independent expenditure, there shall be a rebuttable presumption that the following expenditures are not independent expenditures:

(1) An expenditure made by a person in cooperation, consultation or in concert with, at the request, suggestion or direction of, or pursuant to a general or particular understanding with (A) a candidate, candidate committee, political committee or party committee, or (B) a consultant or other agent acting on behalf of a candidate, candidate committee, political committee or party committee;

(2) An expenditure made by a person for the production, dissemination, distribution or publication, in whole or in substantial part, of any broadcast or any written, graphic or other form of political advertising or campaign communication prepared by (A) a candidate, candidate committee, political committee or party committee, or (B) a consultant or other agent acting on behalf of a candidate, candidate committee, political committee or party committee;

(3) An expenditure made by a person based on information about a candidate's, political committee's, or party committee's plans, projects or needs, provided by (A) a candidate, candidate committee, political committee or party committee, or (B) a consultant or other agent acting on behalf of a candidate, candidate committee, political committee or party committee, with the intent that such expenditure be made;

(4) An expenditure made by an individual who, in the same election cycle, is serving or has served as the campaign chairperson, treasurer or deputy treasurer of a candidate committee, political committee or party committee benefiting from such expenditure, or in any other executive or policymaking position, including as a member, employee, fundraiser, consultant or other agent, of a candidate committee, political committee or party committee;

(5) An expenditure made by a person or an entity on or after January first in the year of an election in which a candidate is seeking public office that benefits such candidate when such person or entity has hired an individual as an employee or consultant and such individual was an employee of or consultant to such candidate's candidate

committee or such candidate's opponent's candidate committee during any part of the eighteen-month period preceding such expenditure;

(6) An expenditure made by a person for fundraising activities (A) for a candidate, candidate committee, political committee or party committee, or a consultant or other agent acting on behalf of a candidate, candidate committee, political committee or party committee, or (B) for the solicitation or receipt of contributions on behalf of a candidate, candidate committee, political committee or party committee, or a consultant or other agent acting on behalf of a candidate, candidate committee, political committee or party committee;

(7) An expenditure made by a person based on information about a candidate's campaign plans, projects or needs, that is directly or indirectly provided by a candidate, the candidate's candidate committee, a political committee or a party committee, or a consultant or other agent acting on behalf of such candidate, candidate committee, political committee or party committee, to the person making the expenditure or such person's agent, with an express or tacit understanding that such person is considering making the expenditure;

(8) An expenditure made by a person for a communication that clearly identifies a candidate during an election campaign, if the person making the expenditure, or such person's agent, has informed the candidate who benefits from the expenditure, that candidate's candidate committee, a political committee or a party committee, or a consultant or other agent acting on behalf of the benefiting candidate or candidate committee, political committee, or party committee, concerning the communication's contents, or of the intended audience, timing, location or mode or frequency of dissemination. As used in this subdivision, a communication clearly identifies a candidate when that communication contains the name, nickname, initials, photograph or drawing of the candidate or an unambiguous reference to that candidate, which includes, but is not limited to, a reference that can only mean that candidate; and

(9) An expenditure made by a person or an entity for consultant or creative services, including, but not limited to, services related to communications strategy or design or campaign strategy or to engage a campaign-related vendor, to be used to promote or oppose a candidate's election to office if the provider of such services is or has provided consultant or creative services to such candidate, such candidate's candidate committee or an agent of such candidate committee, or to any opposing candidate's candidate committee or an agent of such candidate committee after January first of the year in which the expenditure occurs. For purposes of this subdivision, communications strategy or design does not include the costs of printing or costs for the use of a medium for the purpose of communications. For purposes of this subdivision, campaign-related vendor includes, but is not limited to, a vendor that provides the following services: Polling, mail design, mail strategy, political strategy, general campaign advice or telephone banking.

(c) When the State Elections Enforcement Commission evaluates an expenditure to determine whether an expenditure by entity is an independent expenditure, the following shall not be presumed to constitute evidence of consent, coordination or consultation within the meaning of subsection (a) of this section: (1) Participation by a candidate or an agent of the candidate in an event sponsored by the entity, unless such event promotes the success of the candidate's candidacy or the defeat of the candidate's opponent, or unless the event is during the period that is forty-five days prior to the primary for which the candidate is seeking nomination for election or election to office; (2) membership of the candidate or agent of the candidate in the entity, unless the candidate or agent of the candidate holds an executive or policymaking position within the entity after the candidate becomes a candidate; or (3) financial support for, or solicitation or fundraising on behalf of the entity by a candidate or an agent of the candidate, unless the entity has made or obligated to make independent expenditures in support of such candidate in the election or primary for which the candidate is a candidate.

(d) When the State Elections Enforcement Commission evaluates an expenditure to determine whether such expenditure is an independent expenditure, the commission shall consider, as an effective rebuttal to the presumptions provided in subsection (b) of this section, the establishment by the person making the expenditure of a firewall policy designed and implemented to prohibit the flow of information between (1) employees, consultants or other individuals providing services to the person paying for the expenditure, and (2) the candidate or agents of the candidate.
