

ADDENDUM TO A GUIDE FOR PARTY (TOWN AND STATE CENTRAL) COMMITTEES *(last revised January 2019)*

March 2022

In January 2022, the **limits on organization expenditures** made by town committees on behalf of General Assembly candidates participating in the Citizens' Election Program were adjusted according to the consumer price index. A town committee may now make up to **\$12,910.00** in organization expenditures on behalf of a participating state senate candidate during the general election campaign and up to **\$4,518.50** for a participating state representative candidate during the general election campaign. For more information on organization expenditures, please see the pertinent section of the Guide on pages 31-33.

Also, since this Guide was last published in January 2019, the legislature has passed one bill that has indirect impact on party committees. During the 2021 legislative session, the legislature passed [Public Act 21-76](#), which made some changes to the state contractor provisions. The Act requires state agencies and quasi-public agencies to include in bid specifications and requests for proposals a copy or link to a Commission-prepared notice regarding the state contractor provisions and also mandates that covered state contracts contain a representation that the contractor has received such notice. Previously, agencies were required to obtain written acknowledgement of this notice from the state contractor but this requirement was removed. The Act also requires state contractors to provide to state agencies certain certifications regarding past contributions made by their principals which was previously in the law but not under the Commission's jurisdiction.

The 2019 party committee guidebook may be found on the Commission's website, or [here](#).
